Colorado State Fair and Industrial Exposition

2026 General Competition Requirements

Introduction

1. The Colorado State Fair Authority (“Authority”) reserves to itself the final and absolute right to interpret these competition requirements, to fairly and impartially settle and determine all matters, questions, and differences in regard thereto, or otherwise arising out of or connected with or incident to any competition or event on the fairgrounds; and the right to amend or add to these competition requirements as its judgments may determine. The Authority reserves the right to cancel events or change scheduling if necessary. See each division for any specific or special competition requirements.
2. The following terms, conditions, and requirements are general in nature. They apply to all divisions and all competitions at the Colorado State Fair and Industrial Exposition (“the State Fair”).
3. Management refers to the Colorado State Fair Authority (the Authority) and its designated agents, including the General Manager, Section Managers, Department Directors, Show Superintendents, and Lead Clerks. Management is vested with the discretionary power to interpret rules, enforce safety and grooming standards, allocate physical resources, and adjudicate disputes to ensure the integrity and orderly operation of the Fair.
4. Additional and specific competition requirements are set forth within each individual Division’s competition requirements sections.
5. Every exhibitor entering any competition at the State Fair must comply with the requirements set forth below and any additional or specific requirements set forth for each competition, unless specifically noted otherwise.
6. Submission of an entry to the State Fair expressly binds the exhibitor to all terms and conditions contained in any and all parts of the Colorado State Fair Exhibitor Handbook and

the Colorado State Fair Authority Rules as adopted at 8 CCR 1208-1 (“Authority Rule” or “Authority Rules”).

7. Submission of an entry to the State Fair further expressly binds the exhibitor to the expectations of conduct and the penalties associated with failure to so comply, established in the Colorado State Fair Exhibitor Code of Conduct (“Code of Conduct”), which each exhibitor must sign. The Code of Conduct articulates an exhibitor’s express agreement to conduct himself or herself in compliance at all times with the expectations of the Authority as outlined in the Code of Conduct and express agreement that the exhibitor understands that any action that contradicts the agreements promised in the Code of Conduct may result in the exhibitor’s removal from the Authority’s grounds.

Requirements:

1. Competition is open to the world except where otherwise specified.
2. The Authority is not responsible for any loss, damage, or injury to property while on its grounds.
3. An exhibitor’s signature on a competition entry form constitutes the exhibitor’s acknowledgment that the exhibitor agrees to abide by all competition requirements.
4. An exhibitor’s entry into the competition constitutes the exhibitor’s indemnification of the Authority, the State of Colorado, the Colorado State Fair Board of Authority (“Board”), and the Colorado Department of Agriculture from any and all legal proceedings in regard to a challenge to any competition requirement or Authority Rule.
5. An exhibitor acknowledges and agrees that entry into any competition organized and sponsored by the Authority does not guarantee competition. The Authority reserves the right to deny access onto the grounds to any person who exhibits symptoms of potentially communicable illness or who refuses to comply with federal, state, or local public health requirements and guidelines. The exhibitor agrees to indemnify and hold harmless the Authority, the state of Colorado, the Board, and the Colorado Department of Agriculture for any damages that may arise as a result of any such denial of entry or request to vacate the grounds.

6. The exhibitor acknowledges and agrees that entry into any competition organized and sponsored by the Authority is at the exhibitor's risk. In the event of any class or division cancellation, program cancellation, or State Fair cancellation, the exhibitor agrees to indemnify and hold harmless the Authority, the State of Colorado, the Board, and the Colorado Department of Agriculture in any action that may accrue.

Entries and Entry Forms

1. All entries must be made on regulation forms or the designated online entry system, be properly filled out, and be accompanied by all fees whenever required.
2. Entry forms and instructions for making entries are available upon request or may be found [online](#).
3. No entry will be entitled to a place on the grounds without fully completing the entry process.
4. The Authority assumes no responsibility for entry forms or online entry system errors.
5. Every exhibitor expressly understands and agrees that an exhibitor's completed entry form is the exhibitor's acceptance of all competition requirements, whether set forth in a general or a specific requirement. The exhibitor further agrees and understands that the exhibitor will abide by the competition requirements throughout the duration of the exhibitor's time at the State Fair. Additionally, the exhibitor agrees and understands that failure to comply with the competition requirements or any Authority Rule may subject the exhibitor to penalties as determined by the Authority.
6. Entry Fees are non-refundable.

Exhibitor Admission

1. Every exhibitor attending the State Fair must purchase either an All Age Wristband Exhibitor Wristband, a Youth Exhibitor Wristband, or a Daily Gate Admission. Wristbands can be pre-ordered through the appropriate department during the entry process.

- b. Youth Exhibitor Wristband: All Youth Exhibitors entered in a 4-H or FFA show will be able to purchase a discounted Youth Exhibitor Wristband for \$15. 4-H and FFA family members who are not entered or competing at the State Fair will not be able to purchase this discounted wristband.
 - c. Daily General Admission Tickets: Exhibitors, animal owners, or spectators can choose to purchase daily general admission by going to Gates 3, 5, or 9. Prices vary throughout the 11 days; please see daily discounts and admission rates on the Authority's website. Daily admission can be purchased online at www.coloradostatefair.com.
- 2. The Authority reserves the right to limit entries to the facilities available and to cancel any competition or class in which, in its judgment, the entries are insufficient to secure adequate competition. The Authority further reserves the right to return entries and any associated fees if any competition, division, or class is canceled.
 - 3. The Authority may disqualify and remove any entry that has been entered in violation of these general competition requirements or of any specific competition requirements.
 - 4. Entries may not be removed before the time listed within each division's competition requirements. No entry may be released without a properly executed release form. Release forms may be obtained from the appropriate Program Manager.
 - 5. The Authority does not discriminate based on race, creed, color, sex, age, or other non-merit factors.

Disputes

The Authority reserves the final and absolute right to interpret all of the Authority's competition requirements and Authority Rules and to settle interpretation questions.

Determination of Violations

1. The General Manager of the Authority ("General Manager"), the Director of Agriculture and Competitive Exhibits ("Director"), or the Program Manager of the division in which a violation of any competition term, requirement, or Authority Rule is reported to have occurred before, during, or after judging shall make an initial determination as to whether a violation occurred. At no time will any exhibition, judging event, or other ongoing event be delayed, stopped, or interrupted due to any allegation of wrongdoing reported to the Authority or under investigation by the Authority.
2. In consultation with the Director and General Manager, the Program Manager shall, upon determining a violation has occurred, make a determination as to any appropriate penalty (or penalties) to impose upon the violating person(s). The penalties available include, but are not limited to, the following:
 - a. The exhibitor in question may be disqualified and forfeit all entry and other fees and all premiums, trophies, and awards from the division.
 - b. Any or all premiums, trophies, and awards won by the exhibitor in any and all divisions may be withdrawn and required to be returned to the Authority. All entry and other fees will be forfeited.
 - c. The exhibitor may be barred from competition at the State Fair for a determined period, including a lifetime suspension, upon the concurrence of the General Manager, the Director, and the Program Manager.
 - d. The entry in question will not be sold at any sales at the State Fair.
 - e. For any livestock already sold at the State Fair, the Program Manager, in consultation with the Director and General Manager, may determine to permit the exhibitor to receive the sale proceeds minus any amount that the Program Manager, in consultation with the Director and General Manager, determines representative of any costs attributable to the exhibitor. If the Program Manager, in consultation with the Director and General Manager, determines that no sale proceeds will be paid to the exhibitor, an Authority representative will make contact with the buyer to offer the buyer the following options:
 - 1) receive a full refund of the amount paid; 2) donate the amount paid to the Colorado

State Fair Foundation; or 3) allow the Authority to retain the amount paid as a deposit for successive years' State Fair sales.

- f. The Program Manager, Director, or the General Manager may impose any other appropriate penalty.

Rights of Appeal and Process of Appeal:

The following processes and rights of appeal must be followed for actions pertaining to competitions at the State Fair:

- A. Within 15 days of the point when the Program Manager, Director, or General Manager determines that a violation has occurred, the General Manager will notify the exhibitor in writing of the violation and the facts that support the violation. Such notification must be mailed to the exhibitor's address as recorded on the exhibitor's entry form (or hand-delivered if during the State Fair).
- B. Such notification must also include a description of any penalty the Program Manager, Director, or General Manager may assess against the exhibitor.
- C. Within 15 days of receipt of written notification, the exhibitor may appeal the decision in writing to the Board. The written appeal must be delivered to the office of the General Manager within 15 days.
- D. Any written appeal must include any facts relevant to support the appeal.
- E. Within 15 days of receipt of the written appeal, the Program Manager, Director, or the General Manager may rescind the initial determination. The Program Manager, Director, or General Manager may subsequently make no further determination as to the reported violation. The exhibitor will have no further remedy available upon rescission of the initial determination.
- F. Should the Program Manager, Director, or General Manager take no action on the appeal within 15 days from the date of receipt in the office of the General Manager, the appeal must be presented at the next regularly scheduled board meeting for the sole purpose of setting a date for a hearing on the appeal. The exhibitor will be notified in writing after the board meeting of the date of the appeal.
- G. The Board will appoint a hearing panel that will be comprised of the following:

- a. A member of the Board who shall serve as the presiding officer;
 - b. An individual with expertise in the particular competition;

- I. Upon receiving the presiding officer's recommendation at the next regularly scheduled board meeting, the Board will take action and adopt a final determination. The exhibitor will receive a copy of the Board's adopted findings and final determination.

Grievances/Protests

1. Whenever any person believes that an exhibitor has engaged in any activity that violates any competition requirements of the Authority or engaged in any unethical activity during the course of a competition, such person may provide such allegations of wrongdoing to the Program Manager or the Program Manager's designee for review. Any person making such a report must do so on a form that may be obtained at the office of the General Manager, the Program Manager, or the Program Manager's designee, and as set forth in the remainder of this section, "Grievances/Protests."
2. Any grievance must be personally presented to the Program Manager, Director, or the General Manager on a form that may be obtained at the office of the General Manager or the Program Manager's Office.
3. Any grievance so submitted must be accompanied by a \$300 bond. This bond may be returned if the General Manager, Director, or the Program Manager, whoever reviews the grievance, determines that the facts described constitute a violation.
4. Any grievance must be presented within 24 hours of the occurrence of the alleged infraction for all livestock activities and prior to the official closing of the State Fair for all other activities. In the event a grievance is presented after judging has begun on the item or activity in question,

the judging will proceed, and the grievance will be handled as if the grievance had been presented following the judging.

5. Any grievance must be presented in writing and sworn to. The grievance must state the name and contact information of the grieving party, the name of the exhibitor who has allegedly committed a violation, the entry and class in question, the specific allegations giving rise to the grievance, the facts that support the allegations, and the specific terms and conditions from the competition requirements or elsewhere that govern the alleged misconduct.
6. Within 15 days of receipt of any grievance, the Director or the Director's designee shall notify in writing the person(s) submitting the grievance as to the determination of the validity of the grievance and any actions taken as a result of upholding the grievance. If the grievance is denied, the notification must state the reason or reasons for the denial.
7. After an initial determination that the grievance is a valid grievance, the Program Manager and Director will appoint a committee of three disinterested, qualified persons to review the protest and render a decision, which shall be considered final for purposes of appeal under these requirements.
8. The person(s) submitting the grievance will have the right to appeal in a manner consistent with the due process provisions set forth in the Rights of Appeal and Process of Appeal Section of the Colorado State Fair General Competition Requirements.

Definitions

These definitions exist for the purpose of this competition and will assist you in placing your artwork in the correct category.

Painting - Applying paint, pigment, color, or other medium to a solid surface. The medium is commonly applied to the base with a brush, but other implements, such as knives, sponges, and airbrushes, can be used.

Drawing/Printmaking - (Drawing) Using instruments to mark paper or other two-dimensional surfaces. Instruments include graphite, inked brushes, colored pencils, crayons, charcoal, chalk, pastels, erasers, markers, styluses, and metals (such as silverpoint). (Printmaking) The process of creating artwork by printing, mostly on paper, but also on fabric, wood, metal, and other surfaces. Printmaking processes can produce identical multiples of the same work and are created using a hand-processed technique.

Sculpture (3D)/Ceramics - (Sculpture) Three-dimensional art. Sculpture processes include but are not limited to carving, assembling, welding, modeling, molding, and casting. (Ceramics) Various hard,

brittle, heat-resistant, and corrosion-resistant materials are made by shaping and then firing an inorganic, nonmetallic material, such as clay, at a high temperature. Common examples are earthenware, porcelain, and brick.

Photography - The art, application, and practice of creating durable images by recording light, electronically using an image sensor or chemically using light-sensitive material such as photographic film. For the purpose of this competition, photographs taken with a digital camera are acceptable, but significant digital modification is not allowed in this category. Acceptable modifications include but are not limited to cropping, resizing, and slight (20% or less) color correction.

Digital Arts/Digitally-Manipulated Photography - (Digital Arts) Artistic practice that uses digital technology as part of the creative or presentation process, including art created using an Artificial Intelligence Generator. (Digitally-Manipulated Photography) Digitally editing a photograph by more than 10%. Some examples of digitally manipulated photography are: using digital filters, manipulating color, saturation, tone, or vibrance more than 20% or in a manner that is not the natural or original color, pixelation, any photoshopping beyond basic edits (cropping, resizing, 20% or less color correction), erasure of elements in photograph, and recombination of images.

Mixed Media - Artwork in which multiple media or materials have been employed. Assemblages, collages, and certain sculptures are three common examples.

Jewelry/Metalsmithing - (Jewelry) Decorative items worn for personal adornment, such as brooches, rings, necklaces, earrings, pendants, bracelets, and cufflinks. Jewelry may be attached to the body or the clothes. Jewelry often contains precious metals in combination with gemstones or other materials such as shells. (Metalsmithing) The process of creating jewelry involves the manipulation of various metals. These manipulations include forming and shaping, sawing, doming, fold forming, drilling, soldering, texturing, stamping, and more.

Fiber Art - (Fiber Art) Fine art, whose material consists mainly of natural or synthetic fiber and other components such as fabric or yarn. It focuses on the artist's materials and manual labor as part of the works' significance and prioritizes aesthetic value over utility.

Definitions

Duet - is a quilt constructed by one person and quilted by someone else.

Art Quilt - is a contemporary artwork of original design involving the creative expression and exploration of various processes, such as dyeing, printing, painting, stitching, embellishing, quilting, and weaving. An Art Quilt does not follow traditional block lines.

Memory Quilt - is a way of remembering or celebrating family history, the life of a loved one, or an important event in life. Materials used can be clothing, photos, memorabilia, etc.

Appliqué Quilt - Use appliqué as the primary feature. The definition of appliqué is the sewing of smaller pieces of fabric onto a large, whole piece of fabric. Appliqué quilts can include other quilting techniques in a secondary role.

Modern Quilts - are defined as functional quilts that include bold colors and are inspired by modern design. Minimalism, asymmetry, expansive negative space, and alternate grid work are often a part of modern quilt composition, as are improvisational piecing and solid fabrics.

Whole Cloth Quilt - The top layer of a whole cloth quilt is made from a single piece of fabric. No patchwork or appliqué is used in the quilt design. The appearance of a whole cloth quilt relies on the quilting motifs that are chosen, and quilting stitches are usually intricate and closely spaced.

Baby Quilt - is defined as a small quilt made to fit easily in a crib or stroller.

Machine Quilting - Quilting with any type of machine.

Colorado State Fair and Industrial Exposition

2026 General Competition Requirements

Introduction

1. The Colorado State Fair Authority (“Authority”) reserves to itself the final and absolute right to interpret these competition requirements, to fairly and impartially settle and determine all matters, questions, and differences in regard thereto, or otherwise arising out of or connected with or incident to any competition or event on the fairgrounds; and the right to amend or add to these competition requirements as its judgments may determine. The Authority reserves the right to cancel events or change scheduling if necessary. See each division for any specific or special competition requirements.
2. The following terms, conditions, and requirements are general in nature. They apply to all divisions and all competitions at the Colorado State Fair and Industrial Exposition (“the State Fair”).
3. Management refers to the Colorado State Fair Authority (the Authority) and its designated agents, including the General Manager, Section Managers, Department Directors, Show Superintendents, and Lead Clerks. Management is vested with the discretionary power to interpret rules, enforce safety and grooming standards, allocate physical resources, and adjudicate disputes to ensure the integrity and orderly operation of the Fair.
4. Additional and specific competition requirements are set forth within each individual Division’s competition requirements sections.
5. Every exhibitor entering any competition at the State Fair must comply with the requirements set forth below and any additional or specific requirements set forth for each competition, unless specifically noted otherwise.
6. Submission of an entry to the State Fair expressly binds the exhibitor to all terms and conditions contained in any and all parts of the Colorado State Fair Exhibitor Handbook and

the Colorado State Fair Authority Rules as adopted at 8 CCR 1208-1 (“Authority Rule” or “Authority Rules”).

7. Submission of an entry to the State Fair further expressly binds the exhibitor to the expectations of conduct and the penalties associated with failure to so comply, established in the Colorado State Fair Exhibitor Code of Conduct (“Code of Conduct”), which each exhibitor must sign. The Code of Conduct articulates an exhibitor’s express agreement to conduct himself or herself in compliance at all times with the expectations of the Authority as outlined in the Code of Conduct and express agreement that the exhibitor understands that any action that contradicts the agreements promised in the Code of Conduct may result in the exhibitor’s removal from the Authority’s grounds.

Requirements:

1. Competition is open to the world except where otherwise specified.
2. The Authority is not responsible for any loss, damage, or injury to property while on its grounds.
3. An exhibitor’s signature on a competition entry form constitutes the exhibitor’s acknowledgment that the exhibitor agrees to abide by all competition requirements.
4. An exhibitor’s entry into the competition constitutes the exhibitor’s indemnification of the Authority, the State of Colorado, the Colorado State Fair Board of Authority (“Board”), and the Colorado Department of Agriculture from any and all legal proceedings in regard to a challenge to any competition requirement or Authority Rule.
5. An exhibitor acknowledges and agrees that entry into any competition organized and sponsored by the Authority does not guarantee competition. The Authority reserves the right to deny access onto the grounds to any person who exhibits symptoms of potentially communicable illness or who refuses to comply with federal, state, or local public health requirements and guidelines. The exhibitor agrees to indemnify and hold harmless the Authority, the state of Colorado, the Board, and the Colorado Department of Agriculture for any damages that may arise as a result of any such denial of entry or request to vacate the grounds.

6. The exhibitor acknowledges and agrees that entry into any competition organized and sponsored by the Authority is at the exhibitor's risk. In the event of any class or division cancellation, program cancellation, or State Fair cancellation, the exhibitor agrees to indemnify and hold harmless the Authority, the State of Colorado, the Board, and the Colorado Department of Agriculture in any action that may accrue.

Entries and Entry Forms

1. All entries must be made on regulation forms or the designated online entry system, be properly filled out, and be accompanied by all fees whenever required.
2. Entry forms and instructions for making entries are available upon request or may be found [online](#).
3. No entry will be entitled to a place on the grounds without fully completing the entry process.
4. The Authority assumes no responsibility for entry forms or online entry system errors.
5. Every exhibitor expressly understands and agrees that an exhibitor's completed entry form is the exhibitor's acceptance of all competition requirements, whether set forth in a general or a specific requirement. The exhibitor further agrees and understands that the exhibitor will abide by the competition requirements throughout the duration of the exhibitor's time at the State Fair. Additionally, the exhibitor agrees and understands that failure to comply with the competition requirements or any Authority Rule may subject the exhibitor to penalties as determined by the Authority.
6. Entry Fees are non-refundable.

Exhibitor Admission

1. Every exhibitor attending the State Fair must purchase either an All Age Wristband Exhibitor Wristband, a Youth Exhibitor Wristband, or a Daily Gate Admission. Wristbands can be pre-ordered through the appropriate department during the entry process.
 - a. All-Age Wristbands: \$45 each (good for the 11 days of the State Fair); wristbands are available to anyone of any age.

- b. Youth Exhibitor Wristband: All Youth Exhibitors entered in a 4-H or FFA show will be able to purchase a discounted Youth Exhibitor Wristband for \$15. 4-H and FFA family members who are not entered or competing at the State Fair will not be able to purchase this discounted wristband.
 - c. Daily General Admission Tickets: Exhibitors, animal owners, or spectators can choose to purchase daily general admission by going to Gates 3, 5, or 9. Prices vary throughout the 11 days; please see daily discounts and admission rates on the Authority's website. Daily admission can be purchased online at www.coloradostatefair.com.
- 2. The Authority reserves the right to limit entries to the facilities available and to cancel any competition or class in which, in its judgment, the entries are insufficient to secure adequate competition. The Authority further reserves the right to return entries and any associated fees if any competition, division, or class is canceled.
 - 3. The Authority may disqualify and remove any entry that has been entered in violation of these general competition requirements or of any specific competition requirements.
 - 4. Entries may not be removed before the time listed within each division's competition requirements. No entry may be released without a properly executed release form. Release forms may be obtained from the appropriate Program Manager.
 - 5. The Authority does not discriminate based on race, creed, color, sex, age, or other non-merit factors.

Disputes

The Authority reserves the final and absolute right to interpret all of the Authority's competition requirements and Authority Rules and to settle interpretation questions.

Determination of Violations

1. The General Manager of the Authority ("General Manager"), the Director of Agriculture and Competitive Exhibits ("Director"), or the Program Manager of the division in which a violation of any competition term, requirement, or Authority Rule is reported to have occurred before, during, or after judging shall make an initial determination as to whether a violation occurred. At no time will any exhibition, judging event, or other ongoing event be delayed, stopped, or interrupted due to any allegation of wrongdoing reported to the Authority or under investigation by the Authority.
2. In consultation with the Director and General Manager, the Program Manager shall, upon determining a violation has occurred, make a determination as to any appropriate penalty (or penalties) to impose upon the violating person(s). The penalties available include, but are not limited to, the following:
 - a. The exhibitor in question may be disqualified and forfeit all entry and other fees and all premiums, trophies, and awards from the division.
 - b. Any or all premiums, trophies, and awards won by the exhibitor in any and all divisions may be withdrawn and required to be returned to the Authority. All entry and other fees will be forfeited.
 - c. The exhibitor may be barred from competition at the State Fair for a determined period, including a lifetime suspension, upon the concurrence of the General Manager, the Director, and the Program Manager.
 - d. The entry in question will not be sold at any sales at the State Fair.
 - e. For any livestock already sold at the State Fair, the Program Manager, in consultation with the Director and General Manager, may determine to permit the exhibitor to receive the sale proceeds minus any amount that the Program Manager, in consultation with the Director and General Manager, determines representative of any costs attributable to the exhibitor. If the Program Manager, in consultation with the Director and General Manager, determines that no sale proceeds will be paid to the exhibitor, an Authority representative will make contact with the buyer to offer the buyer the following options:
 - 1) receive a full refund of the amount paid; 2) donate the amount paid to the Colorado

State Fair Foundation; or 3) allow the Authority to retain the amount paid as a deposit for successive years' State Fair sales.

- f. The Program Manager, Director, or the General Manager may impose any other appropriate penalty.

Rights of Appeal and Process of Appeal:

The following processes and rights of appeal must be followed for actions pertaining to competitions at the State Fair:

- A. Within 15 days of the point when the Program Manager, Director, or General Manager determines that a violation has occurred, the General Manager will notify the exhibitor in writing of the violation and the facts that support the violation. Such notification must be mailed to the exhibitor's address as recorded on the exhibitor's entry form (or hand-delivered if during the State Fair).
- B. Such notification must also include a description of any penalty the Program Manager, Director, or General Manager may assess against the exhibitor.
- C. Within 15 days of receipt of written notification, the exhibitor may appeal the decision in writing to the Board. The written appeal must be delivered to the office of the General Manager within 15 days.
- D. Any written appeal must include any facts relevant to support the appeal.
- E. Within 15 days of receipt of the written appeal, the Program Manager, Director, or the General Manager may rescind the initial determination. The Program Manager, Director, or General Manager may subsequently make no further determination as to the reported violation. The exhibitor will have no further remedy available upon rescission of the initial determination.
- F. Should the Program Manager, Director, or General Manager take no action on the appeal within 15 days from the date of receipt in the office of the General Manager, the appeal must be presented at the next regularly scheduled board meeting for the sole purpose of setting a date for a hearing on the appeal. The exhibitor will be notified in writing after the board meeting of the date of the appeal.
- G. The Board will appoint a hearing panel that will be comprised of the following:

- a. A member of the Board who shall serve as the presiding officer;
 - b. An individual with expertise in the particular competition;
 - c. A person from the public;
 - d. An Authority senior employee other than the General Manager.
- H. Within 15 days of the conclusion of the hearing, the presiding officer shall submit to the Board and the exhibitor the hearing panel's findings and recommend final determination as to the alleged violation(s) and penalties, along with a copy of the exhibitor's appeal.
- I. Upon receiving the presiding officer's recommendation at the next regularly scheduled board meeting, the Board will take action and adopt a final determination. The exhibitor will receive a copy of the Board's adopted findings and final determination.

Grievances/Protests

1. Whenever any person believes that an exhibitor has engaged in any activity that violates any competition requirements of the Authority or engaged in any unethical activity during the course of a competition, such person may provide such allegations of wrongdoing to the Program Manager or the Program Manager's designee for review. Any person making such a report must do so on a form that may be obtained at the office of the General Manager, the Program Manager, or the Program Manager's designee, and as set forth in the remainder of this section, "Grievances/Protests."
2. Any grievance must be personally presented to the Program Manager, Director, or the General Manager on a form that may be obtained at the office of the General Manager or the Program Manager's Office.
3. Any grievance so submitted must be accompanied by a \$300 bond. This bond may be returned if the General Manager, Director, or the Program Manager, whoever reviews the grievance, determines that the facts described constitute a violation.
4. Any grievance must be presented within 24 hours of the occurrence of the alleged infraction for all livestock activities and prior to the official closing of the State Fair for all other activities. In the event a grievance is presented after judging has begun on the item or activity in question,

the judging will proceed, and the grievance will be handled as if the grievance had been presented following the judging.

5. Any grievance must be presented in writing and sworn to. The grievance must state the name and contact information of the grieving party, the name of the exhibitor who has allegedly committed a violation, the entry and class in question, the specific allegations giving rise to the grievance, the facts that support the allegations, and the specific terms and conditions from the competition requirements or elsewhere that govern the alleged misconduct.
6. Within 15 days of receipt of any grievance, the Director or the Director's designee shall notify in writing the person(s) submitting the grievance as to the determination of the validity of the grievance and any actions taken as a result of upholding the grievance. If the grievance is denied, the notification must state the reason or reasons for the denial.
7. After an initial determination that the grievance is a valid grievance, the Program Manager and Director will appoint a committee of three disinterested, qualified persons to review the protest and render a decision, which shall be considered final for purposes of appeal under these requirements.
8. The person(s) submitting the grievance will have the right to appeal in a manner consistent with the due process provisions set forth in the Rights of Appeal and Process of Appeal Section of the Colorado State Fair General Competition Requirements.

Awards

1. Daily High Point Calculations: Points per class are calculated on a weighted scale with a maximum of 10 points if 10 or more horses are shown. These points will be tabulated towards any High Point Awards. Highpoint ties will be broken on the written test. Except for the Ranch Horse will be tabulated on raw scores. The Written Test scores will be used to break all ties. If a tie still exists, placing in the respective showmanship class for English and Western Division will be used. The state champion award, reserve state champion award, and ten ribbons will be presented to the following divisions/age groups.

Divisions:

- Limited 8-13 years
 - Limited 14-18 years
 - Advanced 8-13 years
 - Advanced 14-18 years
2. Overall High Point Calculations: The Overall High Point will be on a weighted scale with a maximum of 10 points if 10 or more horses are shown, except that the Overall High Point for Ranch Horse will be tabulated on raw scores. If there are fewer than 5 exhibitors entered, Management reserves the right to combine classes.. The Written Test scores will be used to break all ties except in Ranch where the herd work class will be used to break the tie. If a tie still exists, placing in the Western showmanship class will be used. The state champion award, reserve state champion award, and ten ribbons will be presented to the following divisions.

Divisions:

- Limited
 - Advanced
3. Ranch Horse Division Daily High Point & Overall: Points per class will be based on the

exhibitor's earned performance score provided by the judge. Example: An exhibitor with a class score of 68 will receive 68 points for that class. In Ranch Horse, the respective herd work class will be used as the first tie breaker. If a tie still exists, an official flip of a coin will be used to break the tie.

4. Novice Division: No highpoint awards, only class awards and ribbons.
5. Class Awards: Most class awards will be presented at the arena gate after completing the class. Ribbons not picked up at the gate may be claimed at the 4-H Horse Show announcer booth or at the Horse Show Office. Awards will not be mailed.
6. Daily & Overall Awards Presentations: The Horse Show Office will be closed for at least one hour each day after completing the last class. This will allow Management to tabulate and double-check all high points. No exhibitors, spectators, or family members will be allowed in the office during this time. After the tabulation of scores by Management, the officials will call the exhibitors to the arena for the awards presentations.
7. Daily Highpoint Eligibility: A contestant must enter the written test, showmanship, and one riding class to be eligible. A contestant may enter additional classes in a single division that he or she is qualified to enter. 4-H Daily Highpoint Champion include:
 - Western: Written Test, Western Showmanship, Western Horsemanship, Trail, Western Riding, and Reining
 - English: Written Test, English Showmanship, English Equitation, English Riding Control, Show Hack, and Hunter Hack*
 - Ranch Horse: Written Test, Ranch Trail, Ranch Riding, Ranch Individual Cow Work, and Ranch Herd Work
 - Gymkhana: Written Test, Barrels, Poles, and Flags

*These classes do not offer a Level II option for entry.

8. Colorado State Fair Overall English, Western, & Gymkhana Limited and Advanced Saddle: Awarded to the Limited & Advanced exhibitor who accumulates the greatest overall number of points in all three divisions (English, Gymkhana, and Western). Contestants must compete in the Advanced English and Western Divisions or Limited English and Western Divisions to be eligible (i.e., contestants competing in Limited

Western and Advanced English are not eligible for this award). Gymkhana points in the contestants' respective age groups will also be counted. The champion in Limited and Advance will receive a saddle awarded by the Authority. The Authority will sponsor the Limited and Advance Reserve Champion awards for these All-Around awards.

9. Colorado State Fair Overall Limited and Advanced Ranch Horse Saddles: The Authority and Kiana Creek Ranch are sponsoring these saddles. Reserve winners in both levels will receive awards sponsored by the Authority. These awards will go to the individual who accumulates the greatest overall score in all five classes within their designated division of the Ranch Horse Competition. This includes the written test for the ranch horse division.

The Authority reserves the right to adjust results if Management has become aware of an error in the point calculations of results previously announced. In any such case, the Authority has the right to take back all prizes distributed before the error and distribute them to the correct recipient. This will enable the Authority and Colorado 4-H Extension to continue to offer quality awards for the 4-H Horse Show.

Colorado State 4-H Championship Miniature Horse Show

Exhibitor/Miniature Horse Eligibility and Project Rules

1. Exhibitors competing in the Colorado State Fair 4-H State Championship Miniature Horse Show will abide by the same rules outlined at the beginning of this document.
2. Exhibitors will abide by the [2026 Colorado 4-H Miniature Horse Rulebook](#).
3. Please note that the highlighted sections provided are intended as a reference only. All participants are required to review and follow the official 2026 Colorado 4-H Miniature Horse Rulebook in its entirety. In the event of any discrepancies or questions, the 2026 Colorado 4-H Miniature Horse Rulebook will serve as the final authority and deciding document.

Measurements

1. To compete in State Fair Classes, all miniature horses should pass their safety test and be officially measured by the miniature horse project leader. The requirements for obtaining measurements will be followed by the [American Miniature Horse Association Rulebook](#).
2. The miniature horse project leader must re-measure miniature horses under 3 years old every year.
3. Miniature horses must not exceed 38" inches in height.
4. If a miniature horse is measured and found to be over 38" inches, the 4-H Superintendents and Management shall not allow the horse to show.

Show Rules

1. Miniature horse project members must have shown each project horse they wish to qualify in a qualifying show and taken the written test. It is expected for 4-H Specialists to verify this requirement has been met.
2. The show ring will be under the absolute control of the Management and 4-H Superintendents. Only authorized people will be allowed in the show ring during judging.
3. The Authority requires all exhibitors to wear proper attire in all horse show classes. Please refer to the [2026 Colorado 4-H Miniature Horse Rulebook](#) for details on each class.
4. All exhibitors are required to take the written test.

5. All judges' decisions are final.
6. A miniature horse can only be shown by one exhibitor per class.
7. Horses must be at least 1 year old.
8. Exhibitors must display a back-tag number while in the show ring.
9. For safety reasons, any unruly horse or unsafe equipment may be excused from the ring by the judge or Superintendent. An exhibitor cannot protest this action.
10. Excessively large classes may be divided by a Superintendent or Judge, as conditions warrant.
11. No entry may leave the ring after judging has begun without the permission of the Judge or Superintendent.
12. A horse must be handled and shown through an entire class by the same person. Should an additional handler be required due to physical limitation or emergency, approval must be obtained from the 4-H Superintendent and Management.
13. Miniature horses may be shown with full mane or mane with bridle path clipped and full tail.
14. Disqualifications: Height more than 38 inches, dwarfism, and unsoundness.
15. Failure to complete the pattern will not result in a disqualification but will be scored accordingly. In these classes, Zero Scores are eligible for placing, but not above anyone receiving a score above zero.
16. Please refer to the 4-H Colorado Miniature Horse Show Rulebook for more in-depth information about the rules of the show, classes and expectations.
17. Speed and over fences classes will rotate every other year. Even years will have the pole bending/hunter and odd years will have the barrel race/jumpers/versatility.

Performance Halter Division

1. Horses are presented in a relaxed and dignified manner at all times.
2. Weight evenly distributed on their feet; not stretched. Showing in a relaxed manner includes no rocking back to change balance and create intensity.
3. It is acceptable for handlers to raise their hand or use their hand to get the horse's attention but cannot be intimidating to the horse nor cause an intense reaction from the horse.

4. Equipment: a traditional style Arabian show halter, a Western style show halter, Draft type halter, or a leather stable halter.
5. Chains through the mouth are not permitted. A chain or leather strap under the chin, or leather pieces connecting the two sides of the halter under the chin, are permitted.
6. Classes:
 - Performance Halter Mares
 - Performance Halter Geldings
7. An exhibitor can enter a halter mare and a halter gelding; however, for Overall placings the exhibitor's highest placing will be used for points tabulation and the second placing will be dropped. The dropped entries of the second placings of certain exhibitors does NOT move up exhibitors in placing points for Overall. Exhibitors showing only one entry will receive the amount of placing points associated with their original placings.

Showmanship Division

1. Showmanship at Halter: Showmanship is designed to evaluate the exhibitor's ability to execute, in concert with a well-groomed and conditioned horse, a set of maneuvers prescribed by the judge with precision and smoothness while exhibiting poise and confidence and maintaining a balanced, functional, and fundamentally correct body position.
2. In Showmanship classes, exhibitors are to show to the presiding (call) Judge only. Only the handler is judged, the horse is merely a prop to show the showmanship ability of the handler.
3. Judges define the showmanship pattern.
4. Class Procedures: All exhibitors may enter the ring and then work individually, or each exhibitor may be worked from the gate individually (show and go).
5. The following maneuvers are acceptable for use in the pattern: lead the horse at a walk, trot, extended trot, or back; execute any of the gaits (including back) in straight and/or curved lines or a combination of straight and curved lines; stop; turn 90, 180, 270, 360 degrees or any combination or multiple of these turns. The pull turn is an unacceptable maneuver. The pattern must require the exhibitor to set the horse up squarely for inspection sometime during the class.

6. Equipment: When showing in Western tack and attire, Western style show halters with lead are to be used. A chain under the chin is allowed; no lip chains or chains over the nose are allowed. When showing in English tack and attire, appropriate English bridle or English style show halter are to be used. Showmanship whips, war bridles or like devices or any type of wire or rope over a horse's head are not permitted

In Hand Working Performance Division

General Rules: Halter Obstacle, Jumping, Hunter, and Versatility Classes

1. The judge and/or Superintendent have the right to alter the course for safety or to meet rules after the course is set and prior to the beginning of the class. Once the first exhibitor has completed the course, no changes may be made. If the same jump set up is used for different classes, and only jump order and/or heights are changed, the judge and Superintendent only need to walk the course one time.
2. Exhibitors will be allowed to walk the course after it has been set and verified by the judge and Superintendent.

Halter Obstacle

1. To be shown in halter with appropriate lead, chain on lead permitted under the chin of the horse.
2. Horse to be penalized for any unnecessary delay or excessive time at an obstacle. The judge can advance an exhibitor to the next obstacle if a horse is taking excessive time at an obstacle. Maximum time of thirty (30) seconds or two (2) attempts per obstacle.
3. Edible treats are not allowed to encourage an animal to perform one of the obstacles.
4. Whips are not allowed.
5. There must be a minimum of 5 and a maximum of 8 obstacles.

General Rules: In-Hand Hunter and Jumper

1. Horses are to be shown in halter or bridle with appropriate lead. Chain on lead permitted under the chin of the horse.
2. Hunters and Jumpers may show braided manes and tails in the manner of their larger

counterparts.

3. Exhibitors are not permitted to go over jumps.
4. Whip may not be carried.
5. A practice jump of similar construction to the jumps on course will be provided.
6. There will be a minimum of 4 fences and a maximum of 6 fences.
7. A hunter/jumper miniature horse must be 3 years and older.

Jumper Courses

1. Jumper courses should be technically challenging. Jumper courses may consist of lines of fences or single fences, and fences may be placed on straight or curved lines. Multiple turns or changes of direction are encouraged.
2. Fence Heights for Jumpers are: Minimum height 18" Maximum height 24"
3. Jumpers Scoring: Jumpers are scored mathematically on accumulated faults and on time to complete the course in case of ties. There will be one round which will be both scored for faults and timed. Exhibitors will be placed in order of least faults to most faults, with time utilized to break any ties (i.e. scoring by faults and then by time). There will be no additional rounds. Timing starts when the horse's nose passes the starting line and finishes when the horse's nose passes the finish line.
4. Lace up, closed toed tennis shoes/cleats are allowed instead of boots.

Hunter Courses

1. Hunter courses are designed to allow the exhibitor to present the horse to its best advantage. Longer distances and wide corners are utilized to enable a smooth presentation. Exhibitors will not be asked for tight turns. Angled jumps must be approached from the long corner, not the short corners.
2. Hunter courses consist of two or three straight or gently curved lines of jumps that do not require turns between them, or single jumps, with room for wide corners between lines and jumps.
3. Fence heights for Hunters are: Minimum height 18" and Maximum height 24".
4. Hunters are not scored mathematically by faults nor by time. Hunters are judged on style and form over fences, manners, way of going and pace in that order. The Judge must

penalize unsafe jumping (i.e., charging, refusals) and poor form over fences.

5. Circling once upon entering the ring and once upon leaving the ring is permissible.
6. Hunters will require a trot by in front of the judge for soundness.

Versatility

1. The horse will be shown in performance halter, and then as a hunter, in that order.
2. After halter inspections are completed, exhibitors are to follow the Ringmaster and proceed to the hunter course.
3. The hunter requirements for judging are the same as specified under the "Hunter" Rules. The Performance Halter requirements will be judged the same as specified under the Performance Halter Rules.
4. There shall be 2 (two) fences.
5. When all have completed the hunter course, they must trot for soundness before the Judges.
6. Horses do not leave the arena between divisions.
7. Both divisions count equally.
8. Horses must complete all two divisions, without disqualification, to be eligible for a ribbon.
9. No teeth will be checked.

General Rules: In Hand Speed Events Division

1. All in-hand speed events will be timed.
2. Horses must be under control at all times.
3. Horses must be at least 1 year old.
4. Horses are to be shown in a halter with appropriate lead (when in hand). Chain on lead permitted under the chin or over the nose of the horse. A chain is optional. Western, Cable, nylon, and Draft style halters are permitted. Bridles are not allowed.
5. Horses can trot, canter, or gallop for in-hand events.
6. Lace up, closed toed tennis shoes/cleats are allowed instead of boots.
7. **Disqualifications:** Any of the following infractions will disqualify an entry.
 - Running through the chute or gate to enter the arena.
 - A willful refusal to move forward (loss of forward motion) or more than 3 steps

backwards.

- Smacking or hitting with leadline or hand once the exhibitor has crossed the timer
- Off course, which includes negotiating obstacles in other than the specified order or in the wrong direction. This includes circling, backing or reversing the direction of movement.
- The horse is behaving in an unruly manner or out of control.
- Any kind of cruelty to the horse whether or not specifically mentioned in these rules will disqualify the competitor.
- Striking or beating the horse in any manner whatsoever after entering the arena.
Touching the horse will not be considered striking or beating the horse.
- Fall of horse or exhibitor while in the arena.
- Carrying a whip.

8. **Timing Procedure:** Electric timers are preferred over stopwatches. If an electric timer is used, at least one official should take the time using a stopwatch in case the electric timer fails. Contestants are allowed running starts.

In-Hand Barrel Racing

1. Three 55-gallon barrels in safe, usable condition should be used.
2. The contestant is allowed a running start. At a signal from the starter, the contestant will run to barrel number 1, pass to the left of it, and complete an approximately 360 degree turn around it; then go to barrel number 2, pass to the right of it, and complete a slightly more than 360 degree turn around it; then go to barrel number 3, pass to the right of it, and do another approximately 360 degree turn around it; then sprint to the finish line, passing between barrel number 1 and 2. This barrel course may also be run to the left. For example, the contestants will start to barrel number 2, turning to the left around this barrel, then to barrel number 1, turning to the right, then to barrel number 3, turning again to the right, followed by the final sprint to the finish line.
3. Knocking down a barrel will result in a 5 second penalty. Holding or touching the barrels with hands will also result in a 5 second penalty.

In-Hand Pole Bending

1. The pole bending pattern is run around six poles. The poles are placed in a straight line 10 feet apart. The first pole is to be 10 feet from the starting line. Poles are 6 feet high and set on top of the ground, with bases 10 inches to 14 inches in diameter.
2. Contestants may start on either side of the line of poles. They will cross the starting line, move in an approximately straight line to pole 6 (the farthest pole), make a 180-degree turn around pole 6, pass between pole 6 and pole 5, bend through the poles to pole 1, circle pole 1, bend through the poles to pole 6, make a 180-degree turn around pole 6, and cross the starting line by moving along the poles on the side opposite that on which they first approached pole 6.
3. A 5-second penalty will be assessed for each pole knocked down.

Costume Class

1. General: Costumes must be considered safe.
2. Costume classes are to be judged 75% on originality of costume and 25% on presentation.
3. To be shown at a walk both ways of the arena and lined up in the middle of the arena for final judging.

Liberty

Liberty is demonstrating the natural beauty of the horse. Horses are to be judged on style, grace, animation, gaits, presence, and ease of catching. The Liberty animal is expected to perform at both a canter and a trot.

1. Horses will be judged beginning when the halter is removed by the exhibitor (the individual wearing the number) and until caught and haltered by the exhibitor. Time of Liberty shall be 1½ minutes; time to catch shall be 2 minutes.
2. Timing will begin when the halter is removed, not when the music starts, and the show announcer will announce "time" when the 1½ minutes performance has ended to signal the exhibitor that they can begin the catch. Continue to time the catch. When the 2-minute catch time has elapsed, the show announcer will announce "time" to signal the end of the catch if the animal has not been caught. If the catch is not completed in the 2-minute

allotted time frame, the exhibitor is disqualified.

3. Only the exhibitor can touch the animal during the catch. The horse must be caught and haltered by the exhibitor only within 2 minutes or be disqualified. The assistant may not touch the horse at any time. There will be “No Baiting” (no use of hay, grain, clickers, etc.) of Liberty horses during the catch or it will be disqualified.
4. Music is required. Music must not contain any profanity or reference to material that goes against [4-H guidelines](#).
5. No deliberate interference with the horse from outside the ring. Announcement should be made prior to the class to specify that no outside assistance is allowed.
6. Exhibitors and assistants should wear appropriate, tasteful attire. A safe themed outfit within the 4-H Dress Code is allowed for the exhibitor and assistant only.
7. Horses will not be allowed to wear anything once the halter has been removed: no costume, ribbons or glitter.
8. If a horse should fall during its performance, the entry is disqualified.
9. Entry will be disqualified if the horse leaves the ring during competition or catch time.
10. It is the Steward’s responsibility to time Liberty classes and to be in possession of a timer. The Steward should be in the same location as the judge to adjudicate the class.
11. If the wrong music is played, the exhibitor can stop in the arena signaling the need for correction. The correction must be made while the exhibitor is in the arena to begin a new run.

Point Scoring System

Points per class are calculated on a 10-1 scale, no matter how many exhibitors there are in a class. Example: A contestant placing 1st in a class of three will receive ten points; a contestant placing 2nd will receive nine points; and so on...These points will be tabulated towards any Overall Awards

Award Winners

Overall Awards: To qualify for Overall and Reserve Overall High Point in Junior, Intermediate, and Senior age divisions, competitors must take the written test, compete in showmanship, and enter two (2) or more classes in their division. All classes will count toward Overall Awards.

1. Overall and Reserve Overall winners will receive awards in each age division.
2. Top ten placings will receive Overall ribbons.

Top Showman: The top showmanship score will receive awards for each age division (this is dependent on sponsorships each year).

Certificate Awards:

(selected by the judge and can have slight adjustments to verbiage or name)

1. **The Excellence in Presentation Award:** Highlights an exhibitor and miniature horse that embody professionalism while presenting as polished, refined, confident, and poised.
2. **Spirit of the Event:** Recognizes an exhibitor that uplifts the atmosphere, demonstrates enthusiasm, respect, grace, sportsmanship, and is fully engaged.

Event Competition Requirements and Information

General Information

1. Each exhibitor must read and adhere to the Colorado State Fair Competition Requirements adopted by the Colorado State Fair Authority Board of Commissioners (Board): 2026 General Competition Requirements, 2026 General Horse Show Competition Requirements, and the AQHA and NRCHA rules.
2. When checking in to receive back numbers, exhibitors must bring a copy of their horse papers, all membership cards, and a completed W-9 form to the office.

Class Competition Requirements

1. Open LAE Futurity Classes - You can enter all you are eligible for but only pay one cattle/office fee and one video fee. The Level One Open Futurity will run by itself.
2. Open LAE Derby Classes - You can enter all you are eligible for **but** only pay one cattle/office fee and one video fee. The Level One Open Derby will run by itself.
3. Non-Pro LAE Futurity & Derby Classes - If cross-entering with the Non-Pro Futurity or Derby classes, only pay one cattle/office fee and one video fee.
4. Classes that run concurrently. When cross-entering, exhibitors pay the highest cattle/office fee.
5. AQHA classes - Exhibitors can only enter an AQHA class once, even though it is offered in multiple class groupings. AQHA classes are single-judged and point-only, and there are no awards for them.
6. Box Drive - To be eligible to enter this class, Non-Pro riders cannot have earned \$750 in fence work classes at any judged classes or events, with the exception of horse show classes.

NRCHA And AQHA General Rules

1. Classes close at times posted, and the draw will be posted 30 minutes after the classes close. If you enter after the draw, you will go last in the herd work, and in all other classes, you will go first. Draws will be posted on our CSF Facebook Horse Show Group Page!
2. 70 percent of the entry fees are paid back in added money classes, and 100 percent are paid back in jackpot classes.
3. 3 event classes will pay 30 percent to high go-round scores and 70 percent to final placements.
4. The 4 event classes "Top Hand Challenge" will pay 10 percent in each go-round, and 60 percent in final placements.
5. You must be a member of the NRCHA for all approved classes and a member of AQHA if entering those approved classes. You can join at the show.
6. NRCHA Sliding Scale will be used for all classes.
7. Horses must be shown in order of draw unless there is a conflict with the other arena. All conflicts must inform the announcer and the back gate person beforehand.
8. Protests may be filed by [NRCHA rules](#).
9. AQHA rules apply for all AQHA classes offered.
10. NRCHA Show Rep – John Snyder

- A. The Colorado State Fair General Competition Requirements, General Livestock Competition Requirements, Junior Livestock Competition Requirements, Animal Welfare Policy, Colorado State Fair Exhibitor Code of Conduct, and National Show Ring Code of Ethics will govern all livestock competition events at the Colorado State Fair and Industrial Exposition ("State Fair").
- B. **IRS and Colorado Department of Revenue Compliance:** To comply with the Colorado Department of Revenue and the Internal Revenue Service tax-reporting requirements, a properly completed current IRS form W-9 must be submitted for any premium earning of \$600 or more or any monies derived from a sale. Monies won or earned at the Fair will only be paid if the IRS Form W-9 form is correct.
- C. **Premises Identification:** All exhibitors entering Open Livestock or Market Livestock competitions must provide a valid premises identification number (PID) at the time of entry as set forth at 8 CCR 1208-1 Article 8.4(a)(i). To obtain a PID, contact the Colorado Department of Agriculture at 303-569-9130 or click on the following link:
<https://ag.colorado.gov/animals/colorado-location-identification-lid-registration-premises>
- D. **Schedule Of Events:** Authority officials reserve the right to cancel events, change schedules, combine classes, split classes, cancel classes, and adjust premiums if necessary. Officials have the right to combine any classes with five (5) or fewer animals entered at the time of the show.
- E. **Using Animals In Judging Contests:** Exhibitors understand that by entering their livestock into competition at the State Fair, the livestock may be used for judging purposes by the members of collegiate judging teams or for the Colorado State Fair Premier Exhibitor Contests. When an exhibitor is called upon to furnish one or more animals for the students to judge in the Dairy or Livestock Judging Contests, he or she is expected to do so. An exhibitor who refuses to allow his or her animal to be used in this manner may be subject to discipline as outlined in the Determination of Violations Section of the General Competition Requirements.
- F. **Clean Up:** All stalls and alleys must be cleaned daily before 10:00 am. Dirty shavings and manure must be piled in the designated area of the barn. No manure should be put into trash cans.

Sheep And Swine - Southside Disposal

Anyone found dumping manure or trash in undesignated areas will be subject to a fine of \$100 or disqualification, determined by Authority officials.

- G. **Requesting of New Breed Show and Infractions of Existing:** Management will consider requests for new breed shows with a signed request by five potential exhibitors and a payment of \$500, which amount will be applied toward the show's premiums presented to the Livestock and Small Animal Events Coordinator before February 1 of the intended year for such participation.

Breed shows that decrease to less than 10 exhibitors will be placed on a one-year probation period; pending animal numbers for the upcoming year will determine the Authority's right to discontinue that Association's show for the following year. The Authority requires at least 5 exhibitors and not less than 5 animals to be entered and present to conduct a breed show. If those requirements are not met at the time of the show, those animals will be placed in the Other Pure Breed classes.

A Breed association with any debt from the previous State Fair year will not be allowed to conduct a breed show in the current year. The full payment in the prior year must be remunerated in cash directly to the Authority's accounting department. The Colorado State Fair Board of Commissioners reserves the right to decide whether to reinstate that breed show for the following year.

- H. **Release of Animals:** Participants must obtain a release form from the species-specific Livestock Superintendent or Department Coordinator to release all their animals, equipment, tack, and feed or bedding before leaving the grounds. Your vehicle and trailers will be checked, and the release will be collected at the exit gate. Animals removed from the Colorado State Fairgrounds without a signed release or before the scheduled release time may be subject to discipline as outlined in the Exhibitor Admission Section of the Colorado State Fair General Competition Requirements and any penalties prescribed by law.

Entry Information

- A. Entries must be submitted online. To submit an entry, visit www.coloradostatefair.com, click "Competitions," then "Livestock," and scroll down to the appropriate show.

- B. **Entries:** Exhibitors can enter as many entries in any class as they want, except in Market Classes, which have specific limitations outlined in the Junior Livestock Competition Requirements. All exhibitors must purchase an exhibitor's pass and bring an International Association of Fairs and Expositions (IAFE) National Code of Show Ring Ethics form and Colorado State Fair Exhibitor Code of Conduct, which they must sign. Market exhibitors must bring a Quality Assurance Certificate for each animal they will show at the State Fair. Exhibitors will not receive credentials or back/ear tags until they submit each form to the Livestock Office.
- C. **Effect Of Entry:** Every exhibitor expressly understands and agrees that an exhibitor's completed entry form accepts all of the Authority's competition requirements, whether outlined in a general or a specific rule. The exhibitor further agrees and understands they will abide by the competition requirements at the State Fair. Additionally, the exhibitor agrees and understands that failure to comply with the competition requirements may subject them to penalties, including the loss of prize or award money and the return of any other non-monetary awards they may receive.
- D. **Erroneous Entry:** Participants are responsible for their errors and those of their agents and representatives when preparing entries. By applying the participant acknowledges they have read
- Colorado State Fair General Competition Requirements
 - Open and Junior Livestock Show Competition Requirements
 - Junior Livestock Sale Competition Requirements
 - Specific or special division Competition Requirements
 - Colorado State Fair Exhibitor Code of Conduct
 - National Show Ring Code of Ethics
 - USDA Wholesome Meat Act

Participants further agree to observe and abide by these competition requirements.

- E. **Objectionable Exhibits:** Management reserves the right to exclude any entry that may be falsely entered from the grounds and also reserves the right to exclude those considered undesirable or objectionable without assigning a reason. Any person or persons who violate

any of the competition requirements herein may be subject to discipline as outlined in the Determination of Violations Section of the Colorado State Fair General Competition Requirements. The Management reserves the right to decline acceptance of entries at any time without a statement of reason.

- F. **Premiums:** There is no limit to the number of animals an exhibitor may enter in a show or in any one class (with the exception of market classes). There is no restriction as to how many places one exhibitor may be paid per class. Premiums will be paid in accordance with the premium schedule listed in each division. Available show premiums are listed under each individual division. Champion classes consist only of those animals that have been awarded first place. Reserve Champion classes consist of the remaining first-place animals and the second-place animal from the class from which the Champion was selected. Ribbons will be awarded through 6th place in all classes. Rosettes or banners will be awarded for champion classes. See individual breeds for special awards.

Anyone refusing to move his or her vehicle out of the loading area upon request by officials will automatically be towed at the owner's expense, and, at that time, the offending individual, their animals, and their tack will be removed from the premises by a

Colorado State Fair Authority Public Safety Officer. Further, all pre-paid entry or credential fees and any premiums won at the State Fair will be forfeited.

- F. Exhibitor vehicles will not be allowed on the grounds except during load-in and load-out. Once load-in has been completed, exhibitor vehicles will not be allowed on the fairgrounds until such time as the exhibitor will be loading the exhibitor's animals to leave after the show. Exhibitors may not enter the fairgrounds in a vehicle through any gate, including Gate 4, for the purpose of bringing additional feed or bedding.

Show Requirements

- A. **Dress Code:** All livestock exhibitors must wear appropriate show attire when competing. Shorts, tank tops, low-cut shirts, sheer blouses, flip flops, t-shirts, shirts with inappropriate messages or logos, ball caps, or bare midriffs are unacceptable and may not be worn during a show event.
- Recommended dress is as follows: long- or short-sleeved, button-down shirt or blouse, clean jeans or slacks with a belt. Hard-soled, closed-toe shoes or boots are recommended to protect the feet.
 - Rabbits and Poultry: jeans or slacks and long-sleeved shirts are preferred for safety.
 - Dairy Cattle and Dairy Goats: white shirts and pants are recommended.

Management may refuse entry into the show ring for anyone improperly dressed until said exhibitor is appropriately dressed.

- B. **Show Back Numbers:** Each animal entered is assigned a State Fair competition number. Those numbers will be given to each exhibitor as a back number at check-in time. Every back number has the animal's name and class(es) written on the back. The exhibitors must have the correct back number displayed on their back or in a holder attached to the waist before entering the show ring. Not having the correct show animal number displayed coinciding with the original entry on the official judges' sheets may disqualify that animal. Special event hip tag numbers must be displayed on the animal's hip when the animal is in the show ring.

C. Unethically Fitted Livestock: The following are unethical practices and may result in disciplinary action:

1. The injection, use, or administration of any drug or substance that is prohibited by federal, state, or local law or any drug that is used in a manner prohibited by federal, state, or local law;
2. The injection (or internal or external administration) of any product or material, whether gas, solid, or liquid, to an animal for deception, including concealing, enhancing, or transforming the true conformation, degree of firmness, color, breed, condition of age, or by making the animal appear sounder than otherwise would appear;
3. Cutting or tearing of the hide, cutting or tearing underneath the hide, or removal of tissue in any attempt to alter, change, or modify the shape or appearance;
4. Any artificial means of removing or remedying physical defects or conformation (i.e., doctoring, doping, tubing, injecting, or lifting or filling under the skin);
5. Any type of injection where oils, glycerin, or like substances are used to alter and change the conformation of an animal;
6. The administration, use, or application of any drug, feed additive, or substance affecting the central nervous system;
7. The administration of diuretics for cosmetic purposes, tissue manipulation, removal, surgical attachment, or otherwise to change, conceal, enhance, or transform the true conformation or configuration of the animal;
8. Any unnatural means of providing an animal feed, water, or other fluids (i.e., stomach pump, I.V.) except for the drenching process;
9. Any physical or physiological attempt to alter the natural musculature or weight by use of injections or ingested material not conducive to the continued health and marketability of beef, sheep, swine or goat carcasses or for deception;

10. Artificial color (paint) will be allowed on cattle only, but any attempt to change the original color and/or markings of the animal will be prohibited.
11. Prohibited practices also include the use of artificial tail-heads, switches, polls, and hair, as well as any internal or external hoof treatments or artificial substances meant to improve soundness.
12. External application of such things as liniments and blistering agents that would cause edematous condition; and
13. Use of ice packs or other refrigerants to alter the quality of the finish of an animal.

D. **Show Ring:** Exhibitors must exhibit and parade their animals in the show ring as directed by the Livestock Program Superintendent. The Livestock Superintendent may exclude stock from competition for unnecessary or upsetting delay on the part of the exhibitors in bringing animals into the show rings. Violation of a Superintendents' directives or of ring steward show ring procedures may result in discipline as outlined in the Determination of Violations Section of the Colorado State Fair General Competition Requirements.

Exhibitor Eligibility and Project Rules

- A. **Health Requirements:** All exhibitors must comply with the respective livestock health requirements, a copy of which can be found at www.coloradostatefair.com. All livestock will be carefully examined at the arrival gate for evidence of infectious or contagious diseases. If, in the opinion of the examining technician, any evidence of infectious or contagious disease is found, Authority Management will consult and follow any necessary procedures outlined in the Animal Welfare Policy.
- B. **Open Division Eligibility:** Open Division eligibility requires all animals to be registered in their respective Breed Association and be owned continuously in the exhibitor's name or Ranch/Farm name since July 20 of the current year. Individual-owned animals cannot be combined with a Ranch/Farm name to accumulate points toward Premier Breeder/Premier Exhibitor awards. Original registration papers and transfers must be available for inspection and comparison with the animal at show time. All Breed Division Special Competition

Requirements must be met. Exhibitors entered in the Junior Breeding show may enter the corresponding Open classes upon meeting all requirements and making proper entry and payment by the August entry deadline.

- C. **Check-In Procedure:** All livestock exhibitors must enter through Gate #4, proceed to their load in/out area, and then report to the Livestock Office. Exhibitors must have all necessary paperwork to complete check-in in a timely manner. Entry changes must be made final 12 hours before show time. See individual division for other specifics. Each exhibitor will be required to review entry information and credentials. The exhibitor's signature will constitute the exhibitor's acceptance of entries as recorded in the secretary's record and his or her statement that he or she has observed and will abide by all competition requirements of the Authority. Any parent, guardian, or other legally responsible person signing for the exhibitor will take full responsibility and liability for the named exhibitor's acceptance of the terms and that the exhibitor has observed and will abide by all competition requirements of the Authority.
- D. **Substitutions:** Open Breeding substitutions of livestock within the same age, class, and owner will be accepted in the Livestock Office up to 24 hours before the respective show. Substitutions not officially recorded in this manner for the secretary's books are invalid. Only one substitution for the original animal will be allowed. No substitutions will be allowed for different age classifications or owners. Substitutions will not be permitted once check-in is completed. This competition requirement pertains to all species.
- E. **Class Descriptions:** Classes with one or two animals making an entry (Cow/Calf, Dam/Daughter, Produce of Dam, and Pair Classes) are considered individual classes and require pre-entry and payment of the regular entry fee. Classes with three or more animals making up an entry are considered group classes. Group Classes require pre-entry by a single identifying exhibitor with no entry fee. There are no group classes offered in Open Breeding Cattle and Open/Jr. Dairy divisions. All animals shown in group or herd classes must have been entered and shown in their respective individual age class. No nurse cows or nurse goats are allowed on the grounds.
- F. **Water:** A water container with water must be visible and available for watering regularly in each penned/stalled area at all times. NO feeding or watering of livestock in show rings,

holding pens, or to and from re-weigh stations will be permitted. At their discretion, State Fair Officials reserve the right to contact a State Fair veterinarian to determine if water should be given.

Barn/Stalling Information

- A. **Bedding:** Exhibitors are responsible for their own livestock bedding. Entry into competition at the State Fair does not include bedding.

Exhibitors may pre-order bedding and shavings through the Authority's approved bedding supplier or bedding and shavings will be available to purchase on-grounds from the Authority's approved bedding supplier upon arrival. The phone number and order portal will be posted on the Authority's website.

Outside bedding for livestock exhibitors is permitted.

- B. **Generators / Coolers / Fans / Blocking Chutes / Trim Chutes / Trim Tables and Portable Scales:** There will be a \$25 charge for ALL generators payable at the time of entry or added on at the time of check-in. An Authority Livestock Superintendent must approve generators. A permit tag will be assigned after payment is made. Management will move or confiscate any generator without an Authority permit. Any such confiscation will result in a one-time charge of \$50 and a daily storage fee of \$25 per day until the generator is retrieved from Management and properly located. Please observe all "No Generator or Cooler" signage. Fans, blocking chutes, generators, trimming chutes, and trim tables are restricted to the individual exhibitor's assigned stalling area so as not to interfere with any other exhibitor's stalling area or aisle ways. Generators and portable coolers are only allowed in the cattle barns.

1. Free-standing fans will not be allowed. Hanging fans will only be allowed when attached to the tie rails or to supports attached to the tie rails. No fans will be allowed to blow from behind an animal, regardless of attachment or location. All fans must be hung above the stalling area.

There will be a \$25 fee for ALL oversized and refrigerated coolers payable at entry or added on at check-in time. A cooler permit tag will be issued after payment is made. Management will move or confiscate any cooler that does not have an Authority permit. Confiscation of coolers will be handled in the same manner and with the same fees as generator confiscations (see above). All extension cords must be UL approved minimum 16.
 3. Refrigerated free-standing coolers are not allowed in the Sheep and Swine Barn, the north Livestock Pavilion barn, or the goat barn. Any such coolers will be subject to confiscation.
- C. The State Fair Superintendents have the authority to remove any non-approved equipment. Management may charge a one-time fee of \$50 to anyone who has non-approved equipment, including, but not limited to, fans, blocking chutes, generators, trimming chutes, and trim tables. Additionally, anyone using prohibited equipment may be subject to discipline as outlined in the Determination of Violations Section of the Colorado State Fair General Competition Requirements.
- D. No outside scales will be allowed in any barns. Those scales will be provided by the Authority.
- E. **Stalls, Tack Stalls, Pens, and Tie Outs:** All tack stall requests must be submitted in writing and received in the Livestock Office no later than the entry deadline date. There is no guarantee the request can or will be honored. The Authority Superintendents will allocate stall space within the barns when entry fees are completely paid. A cow-calf pair is considered as one (1) entry. A limited number of tie-out stalls are available and will be available on a first-come, first-served basis. Tampering with other exhibitors' stalls, pen assignments, or tie-outs will not be tolerated, resulting in immediate disqualification and immediate removal from the premises. Straw bedding may be used in the cattle tie-out areas. All stalls and tie-outs must be cleaned daily before 10:00 a.m. The Authority is not responsible for any animals in the tie-out area any time of day or night.
- F. **Signs:** A sign may be hung over any animal's stalling area, addressing the owner's name and organization. NO SIGN, which refers in any way to a commercial product, including "For Sale" signs, may be placed anywhere in the Livestock, Sheep/Swine, Goat, or Small Animal barns.

Brochure distribution of advertisement is not permitted. Such signs and brochures will be confiscated. Management reserves the right to have objectionable signs removed immediately with no dispute from the distributor.

Colorado State Fair and Industrial Exposition

2026 Drug Residue Avoidance Guidelines for Junior Market Animal Exhibitors, Parents, and 4-H Extension Agents

Colorado's agricultural youth programs are committed to encouraging positive youth development through honest and fair practices regarding junior livestock events. The Colorado State Fair Authority ("Authority") also continues its commitment to maintaining the integrity of all youth programs. The Authority will continue testing and screening for a broad spectrum of chemical/drug residues at the 2026 Colorado State Fair and Industrial Exposition ("State Fair").

Strict drug testing and screening protects the food chain and maintains the high standards of ethics and integrity that the Authority expects from all participants. Drug testing and penalties (including disqualification and forfeiture of awards) for positive drug tests will be strictly enforced.

Why is it important to drug test junior livestock projects?

- To protect the safety of the food supply
- To foster fair competition

What is my responsibility as an exhibitor or parent?

Know the competition requirements before you enter any livestock show. When you enter the State Fair Market shows, you agree to read and abide by the Authority's competition requirements, as set forth at <https://coloradostatefair.com/competition-requirements>.

What are the Colorado State Fair Livestock Show residue avoidance requirements?

According to the Authority's Junior Livestock Competition Requirements, the carcass of an animal must "contain no trace or residue of any illegal drug or any other substance not approved for

administration to such animal under applicable laws or Colorado State Fair competition requirements and regulations.” If positive results are reported to the Authority from its lab, the Authority must investigate to determine what circumstances led to this result.

- Unapproved drugs are prohibited. Unapproved means not approved by the Food and Drug Administration (FDA) or the United States Department of Agriculture (USDA) for slaughter animals destined for human consumption. This includes using any products that are not FDA-approved, including, but not limited to, any diuretic, unapproved growth stimulant, or other unapproved medication meant for human usage.
- Non-label use of drugs is prohibited. The non-label use of approved drugs is not permitted and may result in an additional investigation around the circumstances and may result in disciplinary action.
- Products labeled “all-natural” that are not FDA-approved may contain ingredients that can result in a positive test. You must know what ingredients are included in products labeled as “all natural.” This includes feed and feed supplements. You are responsible for knowing what is in the feed and supplements you are giving your animals.

What are the best practices for a show animal that falls sick, ill, or injured leading up to the Show?

- Consult with your veterinarian. First and foremost, consult your veterinarian. Do not administer any medications before visiting with your veterinarian. As a part of this conversation, ensure you and the veterinarian know the show’s competition requirements. Carefully consider the time before arrival at the show and assume the elimination period is longer than the labeled withdrawal period. From there, you, your family, and your veterinarian should discuss options before making the best decision.
- Make an informed and the best decision possible. The utmost priority should be the animal’s welfare. The welfare of the animal should always be a priority over competition. This could result in leaving the animal project at home.

- Document all treatment records. If the animal is treated with an approved drug and withdrawal times are observed, maintain an official record of treatment from the veterinarian, including the date of administration and dosage. That information must be listed on the Quality Assurance form submitted during check-in.

If my livestock project receives a positive test, what should I expect?

- The Authority considers each case on an individual basis. Upon receiving a report that any show animal's blood or urine sample resulted in a positive test, the Authority considers various factors, including whether the substance identified in the testing is prohibited. Should the Authority conclude that discipline is appropriate, you will receive notice by mail, including any required follow-up steps or options you may exercise.

What are the common types of drugs that I may be penalized for?

- Antibacterial Therapeutic Medications – These compounds are used to treat infection, but they don't create a competitive advantage. They can cause food safety concerns if not used according to label directions. Many are only FDA-approved for particular species, meaning that extensive research has been conducted regarding the proper dosage and type of administration to be efficacious in that species and the withdrawal time necessary for meat products to be safe for human consumption.
- Non-Antibiotic Therapeutic Medications – Inclusive of anti-inflammatories, antipyretics, diuretics, and anesthetics, these medications can result in a competitive advantage by altering the physical appearance of the animal or concerns with food safety. Some are available over the counter, and others can only be legally sourced and administered through prescription by a licensed veterinarian. Many are only FDA-approved for a particular species and use in any other species without a prescription by a veterinarian is illegal.
- Beta-agonists – Originally developed as bronchodilators in humans, large dosages have a growth-promoting effect in animals, resulting in increased muscle and decreased fat. The only beta-agonist that is currently FDA-approved and commercially available for use in livestock production is ractopamine, which is labeled for use in market cattle, market swine, and market

turkeys with a zero-day withdrawal (i.e., research indicates that meat products are safe for consumption at any time during the feeding period). Using beta-agonists in species that are not FDA-approved or commercially available creates concerns about food safety or competitive advantage.

The use of all drugs in junior market animals, both unapproved and FDA-approved, is governed by the Authority's Exhibitor Handbook and the competition requirements located at:

Colorado State Fair and Industrial Exposition

International Association of Fairs and Expositions (IAFE) National Code Of Show Ring Ethics

Exhibitors of animals at livestock shows shall always deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity in the advancement of agricultural education. This code applies to junior and open-class exhibitors who compete in structured competition classes. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations that they impose on the local, county, state, provincial, and national levels.

All youth leaders working with junior exhibitors must do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers, and responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds. They shall be prohibited from future exhibitions per the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.

3. Junior exhibitors are expected to care for and groom their animals at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the consent by the owner, exhibitor, fitter, trainer, and responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event that culminates with the animal entering the food chain shall not be administered drugs other than per applicable federal, state, and provincial statutes, regulations, and rules. Livestock shall not be exhibited if the drugs administered per federal, state, and provincial statutes, regulations, and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other samples taken from livestock indicates the presence of forbidden drugs or medications, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved, and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate. The report from the laboratory pertains to the sample taken from the animal in question and correctly reflects the animal's condition at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving drugs or medications for the sole purpose of protecting the animal's health shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of

animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

6. Showing or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair or livestock show management, or other show officials shall be treated with courtesy, cooperation, and respect, and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individuals to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, or participant, whether or not they were instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.

11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action that contravenes these rules and violates federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

Policy, and Livestock Health Requirements. Exhibitors must comply with the Wholesome Meat provisions and the Colorado State Fair Exhibitor Code of Conduct. Exhibitors are encouraged to read and be fully informed of the contents of the Drug Residue Avoidance Guidelines.

2. All exhibitors in Open, Junior Breeding, and Market shows must submit a premises identification (PID) number at the time of entry. PID may be obtained by contacting the Colorado Department of Agriculture at 303-869-9130 or click on the following link: <https://ag.colorado.gov/animals/colorado-location-identification-lid-registration-premises>
3. Bedding: Exhibitors are responsible for their own livestock bedding. Entry into competition at the Colorado State Fair and Industrial Exposition ("State Fair") does not include bedding.

Exhibitors may pre-order bedding and shavings through the official bedding vendor or bedding and shavings will be available to purchase on-grounds from said vendor upon arrival. The phone number and order portal will be posted on the Fair's website.

Straw may only be used for Breeding Sheep, Dairy Cattle, Dairy Goats, and for Open Breeding Cattle tie-outs. All other uses of straw are prohibited.

Outside bedding for livestock exhibitors is permitted.

4. Females (does) or wethers are eligible to be shown in the Market Goat Show. All Market Goats are required to have the proper scrapie identification. There is a minimum weight limit of 55 lbs. and a maximum weight limit of 115 lbs. for goats.
5. Market Goats can use only rubber mats, netting, or shavings for bedding, no straw, kitty litter, or other absorbent. Exhibitors will be required to fit on the South end of the Goat Barn and, therefore, will be allowed to bring pop-up canopies with no sides to shade their fitting stands and chairs.
6. Due to limited space, no tack pens will be available. All items, e.g., feed, show boxes, trimming stands, are to be placed in areas designated by the Superintendents. Any of these items placed in pens may be removed without warning. Do not take pens apart; leave them as assembled. Exhibitors may bring plywood for the top of their pens for storage.

7. Goats must be sheared in designated areas only. Goats must be slick-shorn and of uniform length from the knee and hock up before inspection. No shearing will be allowed after processing. Only cordless clippers may be used for touch-ups after inspection.
8. Any violation of the General Livestock Competition Requirements or Junior Livestock Competition Requirements regarding fitting of livestock may result in disciplinary action.
9. Adhesive may only be used on goat legs for show. No painting or coloring agent may be used to alter the natural color of any market goat. No foreign matter or added hair or artificial hair will be allowed on any entry. Exhibitors in violation will not be permitted to show. Any adhesive or powder used on goats should be removed immediately after the show. Application of any substance per rectum or topically to change the natural position of the tail is prohibited.
10. All goats must have horns tipped blunt; no sharp points allowed.
11. Market Goats may be shown with collars (including cleated collars) or halters. Market Goat exhibitors may use meshed or plastic muzzles at the fair. The muzzle style must allow the goat to drink water.
12. Entry Numbers: Each entry will be assigned a number, which will be provided to all exhibitors. The exhibitor must display these numbers when the animal is in the show ring.
13. A water container with water must be visible and available for watering regularly in each penned/stalled area at all times. No feeding or watering of livestock in show rings, holding pens, or to and from re-weigh stations will be permitted. At its discretion, the State Fair officials reserve the right to contact a State Fair veterinarian to determine if water should be given. Drenching for hydration purposes will be allowed for Market Goats at the State Fair. No stomach-pumping devices will be allowed. Injection, drenching, or application of any substance (including any caustic substance) per rectum is prohibited. Further, the application of any substance to or near the tail or anus is not permitted.
14. No iced or wet towels are allowed in the holding area. No family members will be permitted to hold or stage any lamb-holding pens at any time. No exceptions.
15. There will be no official weigh-in of Market Goats. Scales will be available for the exhibitors' use until the deadline for turning in the weight nomination form. The exhibitor

must obtain an official weight nomination form when the animal is inspected. The official weight nomination form must be submitted to the Livestock Office no later than the deadline. The weight(s) indicated on the weight nomination form will be the official show weight. There will be no weight changes after the weight nomination form has been turned in.

16. Classes will be separated by weight. In all Market Goat classes, the front feet of the goat must remain on the show ring floor while being shown. Judges and Superintendents are authorized to disqualify an exhibitor.
17. After each class of Market Goats has been placed, show officials will weigh the top five animals on the official scale. Market Goats cannot deviate more than 5% above or below the declared show weight previously designated by the exhibitor on the weight card. If any Market Goat is weighed out, it will be disqualified, and the remaining animals will be moved up in placing. The disqualified goat is not eligible for any other class and will not be reweighed.
18. Each weight division's Champion and Reserve Champion will compete for the Grand and Reserve Grand Champion. The Champion and Reserve Champion in each weight division (lightweight, medium weight, and heavyweight) and the remaining 1st and 2nd place goats (not to exceed 38 goats) will sell in the Colorado State Fair Junior Livestock Sale. Those exhibitors with two or more sale-qualified animals will only be eligible to sell (1) one animal.
19. Once the sale goats have been determined, those animals will be moved to a showcase area designated by the Livestock Superintendents. All equipment, except for those items needed to feed and water animals and clean stalls, shall be removed from the barn. The Authority will provide each exhibitor with shavings for use in the new stalling area.
20. This is a terminal show for the Junior Market Goats selected for the Junior Livestock Sale. Animals not chosen for the Junior Livestock Sale will be released to the exhibitor after the final sale order is posted. A buyback consignment is offered through the Authority. Market Goat exhibitors are encouraged to utilize sound biosecurity practices upon departure from the fairgrounds; recommended biosecurity procedures are available in the Livestock Office.

5. Pseudorabies test requirements:

- a. A pig must originate from Colorado or a Pseudorabies Free Status State when purchased for feeding and the exhibitor must provide evidence (bill of sale) of the pig's origin prior to unloading on the fairgrounds.
 - b. Arrive at the fair with a current health certificate.
 - c. If conditions A and B above are met, a Pseudorabies test is not required.
 - d. If condition A above is not met, the pigs must be tested and negative for Pseudorabies before entering the fairgrounds.
6. All purebred hogs must have registration papers that have been transferred to or registered in the name of the junior exhibitor and not in a family or farm name by July 1, 2026. All entries must be owned and have primary care by the exhibitor as of June 1, 2026. Home raised pigs require a statement of such signed by a parent or guardian.
7. Each individual exhibitor will be permitted to bring up to four (4) hogs to the Market Hog Show. If an exhibitor brings 1 or 2 pigs, the exhibitor is allowed only one pen; 3 to 4 pigs are allowed two pens. Members of a family will be required to group two hogs together. If dividers are required within a pen, it is the exhibitor's responsibility to provide the exhibitor's own adjustable panel. No tack pens will be available. The standard pen size is approximately 6'x6'. Any items, such as feed, show boxes, etc., placed in pens not assigned to an exhibitor will be removed without warning. Check with the Superintendent for the availability of space for tack placement. If stalling capacities are reached, entries will be returned to the exhibitor. Exhibitors may bring their own plywood (16"x3') to place over their designated pens only. The Authority does not provide plywood.

Water-based conditioning products only. Only oil is allowed on feet. Hogs must have been washed with soap and water only and cleaned for inspection.
11. Any violation of the General Livestock Competition Requirements or Junior Livestock Competition Requirements regarding fitting of livestock may result in disciplinary action:
12. Entry Numbers: Each entry will be assigned a number, which will be provided to all exhibitors. The exhibitor must display these numbers when the animal is in the show ring.
13. There will be no official weigh-in of Market Hogs. Scales will be available for the exhibitors' use until the deadline for turning in the weight nomination form. The exhibitor must obtain an official weight nomination form when the animal is inspected. The official weight nomination form must be turned into the Livestock Office no later than the deadline listed above. The weight(s) indicated on the weight nomination form will be the official show weight. There will be no weight changes after the weight nomination form has been turned in.
14. Classes should be entered by breed classification only. Market classes will be offered in the breed divisions listed, with the order of show from lightweight to heavyweight divisions.
15. Market Hog entries must include ear notch numbers, and the notches should be uniform, healed, and match registration papers per National Swine Registry rules. Any questionable notches will not be allowed to show. NJSA/NSR and Team Purebred personnel will check all hogs entered in breed classes at processing. DNA will not be considered for eligibility when ear notches do not match entry cards. DNA hair samples are required for all hog entries.
16. Crossbred Market Hogs will be entered as Light Crossbred or Dark Crossbred. Crossbred Market Hogs will be inspected at the time of breed classification to determine they are entered in the correct Crossbred division. The following will be used to classify dark and light crossbred hogs:
 - Dark Cross – to classify as a dark cross, the animal must have black pigment and hair in the same location. Examples: black belted, white hog with black spots, calico with black spots, white hog with a black head.

- Light Cross – to classify as a light cross, the animal must have white and non-black pigment. Examples: red belts, red roans, blues and blue butts (including blues with black pigment on snout and toes).

17. Market Hogs will be reviewed by breed classification officials on Thursday, August 27th at the time of inspection. If the breed classification officials determine that an entry in any breed division does not exhibit the characteristics required by that breed association, the entry will be transferred to a crossbred class. If the exhibitor does not accept the transfer, he or she can withdraw his or her entry from the show, but the entry fee for that animal will not be refunded.
18. There must be 10 or more in a breed division to establish individual breed classes. With fewer than 10 in a breed division, breeds will be combined and shown in the other purebred divisions (Dark OPB or White OPB). If there are not enough animals to make the Dark OPB or White OPB classes, those hogs will be shown in a general OPB class.
19. Breeds having fifteen (15) head or less, only the Breed Champion and Reserve Breed Champion qualify for the Junior Livestock Sale.
20. Special purebred classes will be provided for Duroc, Hampshire, Yorkshire, Landrace, Spots, Poland China, Berkshire, Chester White, and Hereford hogs. Purebred classes will be broken by weight, depending on the number of entries. All NJSA market hog entries must be registered Duroc, Hampshire, Yorkshire, or Landrace. All Team Purebred market hog entries must be registered Berkshire, Chester White, Poland China, or Spotted market animals.
21. All NJSA market hogs are to be guaranteed negative of the stress gene to be exhibited at an NJSA or NSR event. At a Team Purebred event, all Chester White hogs are guaranteed to be stress negative. Berkshire hogs must be stress-negative and stress status must be on the pedigree. NSR and NJSA reserve the right to randomly collect a DNA profile on exhibited animals for stress genes, parentage identification, and breed purity at any event where registered animals are exhibited. This collection will be supervised by NSR or NJSA representatives.
22. All NJSA breed Champions, Reserve Champions, or randomly selected market hogs may be blood tested for presence of the stress gene, parentage verification, and breed purity.

23. NJSA and Team Purebred Champion and Reserve Champion overall premiums as well as breed Champion and Reserve Champion premiums will not be awarded until the DNA results are verified at the NSR office.
24. Any NJSA and Team Purebred hogs that fail these DNA tests for the stress gene, parentage verification, or breed purity will be asked to forfeit all show premiums and awards sponsored by NSR. If premiums and awards are not returned to NSR, the exhibitor will not be allowed to compete in future NSR, NJSA, or Team Purebred events.
25. Failed NJSA test results will not be publicized except in the normal listing of canceled pedigrees that is published in the NSR newsletter, For the Record, and the NJSA newsletter. The Pinnacle Photos will also be removed from the NSR website, www.nationalswine.com.
26. Market hogs must meet all registration eligibility requirements of their respective breed associations. NSR and Team Purebred representatives will inspect all purebred hogs for eligibility.
27. Market Hogs will be divided into as near equal classes as feasible by breed and weight.
28. Exhibitors only are allowed in the hog holding or staging pens at any time.
29. After each class of Market Hogs has been placed, show officials will weigh the top five animals on the official scale. Market Hogs cannot deviate more than 5% above or below the declared show weight as previously designated by the exhibitor on the weight card. If any Market Hog is weighed out, it will be disqualified, and the remaining animals will be moved up in placing. The disqualified hog is not eligible for any other class and will not be reweighed.
30. Once the sale hogs have been determined, those animals will be moved to an area designated by the Livestock Superintendents. All equipment, except for those items needed to feed and water animals and clean stalls, shall be removed from the barn. All non-sale hogs MUST be removed from the barn by 9:00 P.M. on show day unless the exhibitor has received permission from the Livestock Department.
31. This show is terminal only for the Market Hogs selected for the Junior Livestock Sale ("Sale"). Animals not chosen for the Sale will be released to the exhibitor after the final sale order is

posted. Market Hog exhibitors are encouraged to utilize sound biosecurity practices upon departure from the fairgrounds; recommended biosecurity procedures are available in the Livestock Office.

8. A scale will be available for exhibitors to weigh before turning in the weight nomination cards. Scale pre-weighs will close at 6:00 p.m. on Friday, August 28, 2026.
9. No changes of Ear Tattoo numbers will be allowed after 6:00 p.m. on Friday, August 28, 2026. Failure to submit a completed weight nomination form by the specified time will automatically disqualify the exhibitor from competing. Rabbits will need to be removed from the showroom.

Any ear tattoo numbers found to be altered or different during judging will disqualify the entire pen.

10. Each pen of three will be weighed only once for official show weight at the time of judging. The American Rabbit Breeders Association (ARBA) licensed judge or a Colorado Department of Agriculture Division of Weights and Measurement representative will record official show weights. No reweighs are allowed.
11. After each class of Market Rabbits has been placed, show officials will weigh the top five pens on the official scale. Market Rabbit pens cannot deviate more than 5% above or below the declared show weight previously designated by the exhibitor on the weight card. If any Market Rabbit pen is weighed out, it will be disqualified, and the remaining animals will be moved up in placing. The disqualified pen is not eligible for any other class, including showmanship, and will not be reweighed.
12. Market Rabbit exhibitors must carry their own rabbits to the judging table and shall remain at the table until their market pen is dismissed by the judge(s). Exhibitors with more than one pen in a class may designate another 4-H/FFA member in good standing to assist them with their animals. Exhibitors must report this name to the office or the Superintendent at the judging table. No parent or adult can carry market pen rabbits to or from the judging table. Entry will be disqualified if this takes place.
13. Market Rabbit Pens will be judged according to the latest ARBA Standard of Perfection 2021 - 2025. Meat pens shall consist of three rabbits, all of the same breed and variety. If the pen is from a breed having a broken color variety, the entire pen must be of the same color variety. A meat pen does not necessarily have to come from the same litter. Age limit of 10 weeks – minimum weight of 3 1/2 pounds each and maximum weight of 5 1/2 pounds each. All rabbits will be weighed in the presence of the judge.
14. Disqualifications From Competition: If any one rabbit in the pen is overweight or underweight, the entire pen is disqualified from competition. ARBA disqualifications from competition and breed disqualifications apply to each meat pen. Exception to disqualification only on the following:

- a. Body smut on Californian or Himalayan-marked animals.
- b. Non-descended testicles on bucks.

15. Rabbit Pens Will Be Judged On:

- a. Meat Type 40 Points
- b. Condition of Flesh 30 Points
- c. Uniformity of body and weight 20 Points
- d. Fur 10 Points

16. Junior Livestock Sale Qualifiers: The Grand Champion and Reserve Grand Champion Market Rabbit Pens will qualify for the Junior Livestock Sale ("Sale"). This is a terminal sale only for those rabbits that qualify for the Sale. All Junior Livestock Sale Competition Requirements apply to qualifying Market Rabbit pens. 2. All entrants must be 4-H members (being 8 years of age and not having reached their 19th birthday as of December 31, 2025) or in FFA and active in an approved Vocational Agriculture school program as of January 1, 2026 (not to have reached their 19th birthday as of December 31, 2025).
3. This competition is open only to those junior market exhibitors who successfully enter and compete at the 2026 Colorado State Fair. In addition, the exhibitor must qualify for the 2026 Colorado State Fair Junior Livestock Sale ("Sale"). Once the final sale determination has been made for a species, all qualifying exhibitors will automatically be eligible to compete in the Premier Exhibitor Competition. Participation is voluntary for each sale qualifier.
4. The competition comprises five different event categories that earn the exhibitor points towards a final maximum score of 250 points. These categories include Live Animal Placings (50 points maximum), Market Showmanship Placing (50 points maximum), Livestock Judging Class (50 points maximum), Written Exam/General Species Applied Knowledge (combined 100 points maximum).
5. To maintain eligibility within the competition, the exhibitor must actively participate in each of the five event categories.

6. Ties of the highest cumulative points will be decided based on scores in individual categories in the following order: first: highest Market Class Placing; second: highest Market Showmanship Placing; and third: highest combination of scores between the “Live Judging Classes” and the “Written Exam.”
7. COMPETITION TIME AND LOCATION: Monday, August 31st following the selection of the Grand Champion Market Beef. If an exhibitor has a conflict, please contact the Superintendent to arrange a time to complete the contest requirements.

Competition Logistics

Market Class Placing

1. The Market Class Placing will account for 20% of the overall score, earning points ranging from a minimum of 10 points to a maximum of 50 points.
2. Only those entries that receive a 1st through 10th placing while also qualifying for the Sale will be eligible to receive a score. Exhibitors will earn only one score per species, which must be their highest-placing animal within the respective species.
3. Grand Champion, Reserve Grand Champion, Third Overall, Fourth Overall, Fifth Overall, Division Champions, and Reserve Division Champions will receive higher scores than the original market classes.
4. To receive the full culmination of points for a specific placing within a class, there must be at least ten entries within that same respective class. For every class that does not showcase ten entries, exhibitors will receive a 2-point discount in their score for each entry below the minimum threshold of ten entries.
 - a. Example: There are eight animals in a class. An exhibitor placing 5th would normally receive 20 points had there been the minimum of ten entries within the class. Because there are only eight entries, a 2-point discount in score will be applied for every entry

Premier Market Beef Exhibitor Competition

below the minimum threshold. In this case, a 4-point discounted score would be applied, awarding the exhibitor 16 points.

- b. See Table 1.1 for the scoring breakdown of Market Class Placing.

3. To receive the full culmination of points for a specific placing within a showmanship division, there must be at least ten entries within that same respective showmanship division. For every division that does not showcase ten entrants, exhibitors will receive a 2-point discount in their score for each number of entrants below the minimum threshold of ten exhibitors.
 - a. Example: There are eight showmen in a division. An exhibitor placing 5th would normally receive 30 points had there been a minimum of ten entries within the division. Judging Classes

1. The “Judging Classes” will account for 20% of the overall score, earning points ranging from a minimum of 0 points to a maximum of 50 points.
2. The “Judging Classes” will be made available to exhibitors at an appointed time following the Market Show with the time and place specified by the contest Superintendent.
3. Exhibitors will judge at least one market animal class, each with four animals per class, worth 50 points maximum. These classes will be in the species in which exhibitors compete for the Premier Exhibitor Award (i.e., if competing for the Premier Beef Exhibitor Award, the exhibitor will judge market beef classes). In the event that more than one class is being judged, total points for this section will not exceed 50 points. This is at the discretion of the Premier Exhibitor Superintendent
4. Judging classes will be chosen by the Premier Exhibitor Superintendent using a nationally recognized livestock judging website.
5. All live judging and scoring will be based on and adhere to the Colorado State 4-H Livestock Judging Rules and Regulations.
6. The exhibitors will be allowed to judge 12 minutes per class to evaluate the provided videos and place the class. They will then hand-mark their placing(s) and turn into the competition Superintendent.
7. Exhibitors will evaluate the livestock and rank them 1-4 on a standardized “Judging Card” based on the animal’s overall conformation and quality.
8. Each “Judging Card” will allow for a maximum score of 50 points. If more than one class is being evaluated, then the score registered will be prorated. For example, if a participant scores a 35 and a 40 those scores will be converted to a 17.5 and 20 (respectively) with a total for this portion being a 37.5.
9. There will be no oral reasons following the judging of the live market classes.

Written Exam and General Species Applied Knowledge

1. The “Written Exam” and “General Species Knowledge” will account for 40% of the overall score, earning points ranging from a minimum of 0 points to a maximum of 100 points.
2. The “Written Exam” and “General Species Knowledge” will be held following the market show, with the time and place specified by the contest Superintendent.
3. All exams will be taken independently with no external guidance or aid. The Authority will provide all the material necessary to complete the exam.
4. The exam will include multiple-choice, beef industry-related questions. The general species applied knowledge will include activities relating to anatomy, retail products, medicine identification, antibiotic label reading, etc.
5. Exhibitors will have one hour to complete these portions.
6. Exhibitors will not receive any study guides or any sort of reference to the source material before the exam. The goal is to test the exhibitor’s current and intuitive industry knowledge.
7. Exhibitors will not have access to the tested materials before or after completion.

4. Exhibitors will receive a score based on their placing

These classes will be in the species in which exhibitors compete for the Premier Exhibitor Award (i.e., if competing for the Premier Beef Exhibitor Award, the exhibitor will judge market beef classes). In the event that more than one class is being judged, total points for this section will not exceed 50 points. This is at the discretion of the Premier Exhibitor Superintendent
4. Judging classes will be chosen by the Premier Exhibitor Superintendent using a nationally recognized livestock judging website.
5. All live judging and scoring will be based on and adhere to the Colorado State 4-H Livestock Judging Rules and Regulations.

7. Exhibitors will evaluate the livestock and rank them 1-4 on a standardized “Judging Card” based on the animal’s overall conformation and quality.
8. Each “Judging Card” will allow for a maximum score of 50 points. If more than one class is being evaluated, then the score registered will be prorated. For example, if a participant scores a 35 and a 40 those scores will be converted to a 17.5 and 20 (respectively) with a total for this portion being a 37.5.
9. There will be no oral reasons following the judging of the live market classes.

Written Exam and General Species Applied Knowledge

1. The “Written Exam” and “General Species Knowledge” will account for 40% of the overall score, earning points ranging from a minimum of 0 points to a maximum of 100 points.
2. The “Written Exam” and “General Species Knowledge” will be held following the market show, with the time and place specified by the contest Superintendent.
3. All exams will be taken independently with no external guidance or aid. The Authority will provide all the material necessary to complete the exam.
4. The exam will include multiple-choice, beef industry-related questions. The general species applied knowledge will include activities relating to anatomy, retail products, medicine identification, antibiotic label reading, etc.
5. Exhibitors will have one hour to complete these portions.
6. Exhibitors will not receive any study guides or any sort of reference to the source material before the exam. The goal is to test the exhibitor’s current and intuitive industry knowledge.
7. Exhibitors will not have access to the tested materials before or after completion.

Swine Show Classification Standards

Note: All breeds must have been ear-notched within seven days of birth. Any gilt not properly ear-notched or having an ear notch that is not healed completely will be ineligible to show.

Berkshire

1. The ideal color pattern is black with six white points (face, four socks, tip of tail). Less desirable, but acceptable, are sandy colored hair in the areas where white and black border.
2. Color Qualifications for Registration (boars, gilts, and barrows must meet the following color requirements to be recorded):
3. A Berkshire must have white on the face and tail unless the tail is docked.
4. Three of four legs must be white.
5. A Berkshire must not have a spotted or mottling pattern – an intermixture of black and white or red hair that is larger than a contiguous 93.5 square inches area anywhere on the body of a mature pig (approximately a 8 ½ x 11 square inch area; on a 50 lb pig, this would be equivalent to 15 square inches, or a 3 x 5 area).
6. A Berkshire must not have an area of white skin that exceeds 93.5 square inches of contiguous solid white skin on the upper 2/3 of the body (15 square inches on a 50 lb pig).
7. A Berkshire cannot have white skin or hair that continuously encircles the body anywhere between the base of the ear and the base of the tail. From the base of the ear forward, a Berkshire cannot be solid white.
8. A Berkshire cannot have any skin color besides black and white (including red or sandy-colored skin).
9. The ideal ear carriage is rigid and tight. Less desirable but acceptable, ear carriage is:

- a. ears that are larger than aesthetically pleasing; and
- b. ear carriage that lacks rigidity.

10. No animal shall be eligible to record unless it is distinctively ear-notched at farrowing time. All pigs from the same litter must carry the same litter notch. When individual ear-notches are used, the right ear shall be used for the litter notch and the left ear for the individual notch, per the official Berkshire ear-notching system. An official ear-notching system is available on request. No two litters on the farm shall be ear-notched the same during the same farrowing season, which may be interpreted as being between January 1 through June 30 and July 1 through December 31 of each year.

11. Disqualification for Registration of Breeding Animals. The presence of one or more of the following are disqualifications for registration:

- a. less than 6 functional teats on each side,
- b. the presence of one or more swirls on the upper half of the body,
- c. total blindness,
- d. rectal or uterine prolapse,
- e. hermaphroditism,
- f. atresia ani;
- g. cryptorchidism or monorchidism;
- h. scrotal or umbilical hernia,
- i. ear carriage that “breaks” to the point in which ears are continually directed in a downward angle.

Chester White

1. Must possess Chester White Breed characteristics.
2. Must be ear notched within 7 days of birth.
3. Must be solid white in color, no color on the skin larger than a silver dollar, no colored hair.
4. Any pigs with skin pigmentation other than white that exceeds five in number are disqualified.

5. Ears must be down and medium size.
6. Any signs of weighed ear tags or evidence of past existence of such ear tags are determined to be not permissible and are grounds for disqualification.
7. All boars and gilts must have six (6) functional teats on each side for exhibition.
8. The Chester White Swine Association requires that all sires used for recorded litters be DNA stress-tested negative before they can be part of the Chester White recording base. Additionally, all sires resulting from a negative-negative mating must be DNA stress-tested negative before being part of the Chester White sire database.
9. All Chester White pigs consigned to national shows/sales or state association events are guaranteed to be stress-negative by the exhibitor.

Duroc

1. Duroc barrows or gilts exhibited as market animals:
 - a. Must be red in color and possess Duroc breed character. Ears must be down.
 - b. Must be ear notched within seven days of birth.

 - i. The United Duroc Swine Registry (UDSR) will allow Durocs to be recorded with less than 12 teats. However, to be exhibited at breeding stock shows, Durocs

must possess six or more functional teats on each side of the underline. Pin teats and inverted nipples are not considered functional.

- ii. A boar must not have a physical defect (including but not limited to an adhered or tied penis, limp penis, infantile penis and coiling of the penis in the diverticulum), which would hinder proper delivery of semen, and the boar must extend his penis without physical manipulation excluding the expression of the sheath fluid; if a boar cannot meet the above requirements, his pedigree will be canceled.

Hampshire

1. Hampshire barrows or gilts exhibited as market animals:

 - iii. White is allowed on the rear legs as long as it does NOT extend above the tuberculis bone (knob of the hock).
 - iv. Hampshire swine classified as off-belts may be used for breeding purposes, with offspring eligible for registration with the NSR. Off-belts will continue to be eligible to be shown in market hog classes but will not be eligible for exhibition in breeding swine shows. This policy is retro-active and will allow litters to be registered that were not eligible previously due to the Hampshire Swine Registry off-belt requirements.

- v. Hampshire breeding animals may be recorded with less than 12 teats. However, to be exhibited at breeding stock shows, Hampshires must possess six or more functional teats on each side of the underline. Pin teats and inverted nipples are not considered functional.

Hereford

1. Ideal Color Markings

- a. The ideal color markings of all Hereford breeding hogs eligible for registration shall be red, light, or dark; however, deep red is preferred with a white head, ears, and 4 white legs; whether the underline of the animal is white or red is breeder preference. Ears must be at least broke forward.

2. Breed Definitions

The body shall be at least 2/3 red, there shall be no white over the back beyond the shoulder blade with exception of a splash or drip, with no connecting belt anywhere on the body. This does not include the neck. Herefords fitting this category must also have white on at least 2/3 of their face, ears broke forward, and possess at least 3 white feet.

- a. 3.1 – Marking and Other for breeding animals. Other disqualifications are more than 5 black spots larger a U.S. minted 50-cent piece on any part of the animal or and 1 black

spot larger than 4 inches at any point of measurement, erect ears; or where an animal shows evidence of an extra dewclaw, boars with one testicle, less than 6 functional teats on each side of underline, permanent deformities of any kind.

4. Hereford Market Animals. Market animals shall be eligible for registration as off-marked with these requirements: At least 50% of a white face, at least 50% red body, at least 2 white feet. This will be known as the "50-50-50 rule".
 - a. Off-marked boars must be registered as barrows. No off-marked males are permitted for breeding purposes or for marking purebred swine.
 - b. Off-marked females must be registered with an "OM" before the registration number or animal name.
 - c. Off-marked females are only allowed in market swine classes where females are permitted and are in no way eligible to be shown in purebred breeding classes.
 - d. Off-marked females must be registered as market animals. Thus, these market animals must be declared at the time of registration and will receive a pedigree stating. "This animal is a Purebred Hereford Hog meeting minimal requirements governed by The National Hereford Hog Record Assn. to be shown or sold as a market animal only and is not eligible for breeding or breeding swine shows as a purebred Hereford Hog." Due to ineligible color markings or other purebred breeding swine classifications.
 - e. Reporting of belts and black spots in breeding animals' offspring. Belts and black spots do appear occasionally. It is the job of the breeders and members to do their best to eliminate this from their herds. The National Hereford Hog Record Assn needs to be informed of any swine-producing belted or black-spotted offspring.

Competition Requirements

1. All entrants must have read and be familiar with the General Terms and Conditions, General Livestock and Small Animal Competition Requirements, Junior Livestock Competition Requirements, Colorado State Fair Exhibitor Code of Conduct, Animal Welfare Policy, and Livestock Health Requirements. When applicable, all association rules shall apply.
2. All entrants for livestock exhibited in Open, Breed, or Market competitions shall provide a valid Premises Identification number (PID) at the time of entry. To obtain a PID, contact the Colorado Department of Agriculture at 303-869-9130 or click on the following link:
<https://ag.colorado.gov/animals/colorado-location-identification-lid-registration-premises>

3. All Camelids arriving at the Colorado State Fair must have a Certificate of Veterinarian Inspection (CVI) with them at the time of arrival. This CVI must be dated no more than seven (7) days prior to arrival
4. Bedding: Exhibitors are responsible for their own livestock bedding. Entry into competition at the Colorado State Fair and Industrial Exposition ("State Fair") does not include bedding.

Exhibitors may pre-order bedding and shavings through the official bedding vendor or bedding and shavings will be available to purchase on-grounds from said vendor upon arrival. The phone number and order portal will be posted on the Fair's website.

Straw may only be used for Breeding Sheep, Dairy Cattle, Dairy Goats, and for Open Breeding Cattle tie-outs. All other uses of straw are prohibited.

Outside bedding for livestock exhibitors is permitted.

5. Exhibitors must be 4-H members (being 8 years of age and not having reached their 19th birthday as of December 31, 2025); in FFA and active in an approved Vocational Agriculture school program as of January 1, 2026 (not to have reached their 19th birthday as of December 31, 2025); or be a member of a Junior Breeding Association (being 8 years of age not to have reached their 21st birthday as of December 31, 2025).
6. Any unruly Camelid will be removed from the show. The Superintendents or judge may rule a Camelid as unruly, unable to participate in the show for safety purposes.
7. ENTRY NUMBERS: Each entry will be assigned a number. Entry numbers will be provided to all exhibitors. The exhibitor must display these numbers when the animal is in the show ring.
8. SHOWMANSHIP classes will be required for all exhibitors. The showmanship class is a demonstration of the handler's ability to show a Camelid to its best advantage at halter. Judging is based on the handler's basic skills in fitting, grooming, animal knowledge, following directions and showing style when presenting the animal to the judge for evaluation. Showmanship will be limited to those junior exhibitors with llama or alpaca being exhibited.

9. OBSTACLE - This class demonstrates the Camelid's obedience and willingness to complete the activities requested by the handler. Obstacles may include, but are not limited to, a bridge or ramp, jumps, change of pace and backing.
10. PACK - This class simulates the conditions and obstacles encountered when packing on the trail. All packs must have two straps (belly and chest straps are acceptable) and panniers must be filled out. Obstacles may include a bridge or ramp and backing. Alpacas are permitted to use dog or goat packs and must be filled with something light. Parents are asked to gather packing equipment and help younger exhibitors so the show can start on time.
11. COSTUME - This costume contest in 4-H is not about dressing up your Camelid, but rather how the 4-H Member has trained and desensitized the Camelid to various stimuli. Although it may be an entertaining event for spectators, it is important not to lose sight of the purpose behind it. The more your Camelid is trained to accept being touched, wearing the costume, and having coverage on various parts of their body, the higher your score will be. Points are awarded for things like dragging items, hats, glasses, noise-making items and reflective items, all showing how well the 4-H Member has worked with their Camelid. Additionally, the handler's attire and theme are also considered in the score because the Camelid's acceptance of the oddity of the handler's attire shows the desensitization of the Camelid. The costumes can be purchased or made, but the focus is on the training and desensitization of the Camelid before the show. **The costume for 2026 must reflect the theme of the 250/150 Celebration of the United States and Colorado.**
12. EDUCATIONAL DISPLAY (POSTER) - The educational display class is a part of the Camelid project in 4-H. The aim of this class is to showcase a skill learned or investigated during the current 4-H Camelid Project. The participants are required to make a tri-fold board that meets the standardized tabletop display board size of 4 ft. x 3 ft. trifold. The display board must be neat, well-organized and readable from 3-5 feet away. Scoring will be in the areas of creativity, accuracy of information, interest and value of exhibitor, depth of knowledge, neatness, readability, well-organized and met expectations of contest guidelines.
13. Authority officials have the right to combine any classes with fewer than 5 animals.
14. Ribbons will be awarded 1st through 6th place in all classes.
